Albany College of Pharmacy and Health Sciences
Albany College of Pharmacy and Health Sciences is committed to graduating the best health care minds in the world, with an array of degree programs designed to help students succeed in pharmacy and other health related fields.
There are more than 1,600 students enrolled at ACPHS and more than 100 full- and part-time faculty. The College’s main campus is located in Albany, New York; its satellite campus is in Colchester, Vermont.
The College offers a Doctor of Pharmacy (Pharm.D.) program and master’s degree programs in Biotechnology, Pharmaceutical Sciences, Cytotechnology and Molecular Cytology, Health Outcomes Research, and Biotechnology-Cytotechnology.
Opportunities exist for students within each of these programs to work side-by-side with faculty on groundbreaking research in areas such as cancer, infectious disease, and obesity. These opportunities, along with access to resources such as the cutting edge Pharmaceutical Research Institute, are part of what distinguishes ACPHS from other colleges and universities.
Graduates of the College are prepared for a range of careers such as: biochemist, clinical laboratory scientist, consumer safety officer, drug information specialist, environmental toxicologist, health policy analyst, hospital administrator, pharmacist, physician, physician assistant and research scientist.

AUA College of Medicine
American University of Antigua College of Medicine was founded in 2004 with the mission of addressing the growing physician shortage in the United States. Garnering the support of world-renowned Manipal University, AUA has developed into a hub of international education, centered in a recently built, 150,000 sq. ft., technologically advanced campus. AUA’s Basic Sciences curriculum consists of two semesters per academic year. This is based on top U.S. medical school programs and, coupled with AUA’s new campus, provides a learning experience unequalled in the Caribbean.

Boston University
Mental Health Counseling and Behavioral Medicine Program
The Master of Arts (M.A.) in Mental Health Counseling and Behavioral Medicine (MHCBM) is an intensive 60-credit degree program designed to meet the requirements for an independent mental health-care license in Massachusetts and other states. The primary objective is to prepare individuals in mental health counseling interventions with a complementary background in behavioral medicine and neuroscience. Graduates of the (MHCBM) program provide a range of assessment, diagnostic, and treatment-focused counseling services to clients in mental health, medical research and independent practice settings.

Dalhousie University, Faculty of Dentistry

Doctor in Dental Surgery and Diploma in Dental Hygiene programs

Dalhousie University is a comprehensive teaching and research institution located in Halifax, Nova Scotia. The university was founded in 1818 and is Atlantic Canada's leading research university, recognized for strengths in health and ocean studies. The Faculty of Dentistry at Dalhousie has been providing an outstanding education for our students for more than 100 years. Our tradition is excellence and our nationally and internationally recognized faculty members educate dental professionals that we are proud to welcome as our colleagues after graduation. The 4-year Doctor in Dental Surgery degree program features clinical experiences in our modern dentistry clinic beginning in the first year of the program; with instruction in digital radiography and electronic patient records. Graduates are eligible for license to practice dentistry in Canada, United States, Australia and New Zealand. The 2-year Diploma in Dental Hygiene program prepares health care professionals to work with clients to prevent dental disease and help maintain oral health in a current, dynamic, scientific and professional education environment using small-group, case-based learning and comprehensive clinical experiences. Tuition and mandatory fees include a laptop computer, electronic textbook library and drug databases, related software and technical support, all clinical instruments, sterilization and clinic attire.

The Geisel School of Medicine at Dartmouth

MD, plus MD-dual degree programs

Dartmouth's Geisel School of Medicine, the fourth oldest U.S. medical school, is a partner of Dartmouth-Hitchcock Medical Center (DHMC). The 6,000 employees of DHMC serve a patient population of 1.6 million. DHMC includes Mary Hitchcock Memorial Hospital, Dartmouth-Hitchcock Clinic, and the Veteran's Affairs Hospital in White River Junction, VT. Other facilities contributing to the integration of advanced research and quality care within DHMC include the Norris Cotton Cancer Center (a National Cancer Institute Comprehensive Cancer Center), Children's Hospital at Dartmouth, and the Borwell Research Building. DHMC is a major force for treatment and discovery and is the site of numerous clinical trials. Additional teaching sites span nationally and internationally from the New England states to Tanzania. A faculty of approximately 2000 affords ample opportunity for individual instruction. Geisel is a private institution with an entering class of approximately 85 students, a national student body, and a strong financial aid program

New England College of Optometry
Doctor of Optometry
New England College of Optometry educates high-achieving students for careers in eye care delivery, research, and education; supports faculty involved in cutting-edge research and provides quality optometric care to more than 50,000 individuals annually. NECO is internationally recognized as a leader in innovative optometric education, research and community-based eye care. Alumni and students impact the health care of countless individuals daily, including children, the elderly, and the homeless in this country and abroad. www.neco.edu

New England School of Acupuncture
Master's Degree Programs in Acupuncture and Oriental Medicine
As the nation’s first school of acupuncture and Oriental Medicine, NESA’s tradition of excellence is without equal. Since our founding in 1975, we have focused solely on preparing the country’s best acupuncture and Oriental Medicine practitioners. Our comprehensive programs in acupuncture and Chinese Herbal Medicine are carefully designed to develop leaders in integrative medicine. Whether you’re interested in pediatrics, elder care, pain management, or women’s health, you will find your calling here at NESA. http://nesa.edu/academics

Northeastern University
Bouve College of Health Science
Northeastern’s Bouve College of Health Science offers graduate programs in Nursing, Physical Therapy, Biotechnology, Pharmaceutical Sciences, Audiology, Speech Language Pathology, School Psychology, Counseling Psychology, Physician Assistant, Public Health, and College Student Development (www.northeastern.edu/bouve).
Located in Boston, we are a competitive, nationally ranked university with a high job placement percentage for our graduates. Our programs are accredited for licensure by multiple professional associations, and we are consistently ranked among the top programs in healthcare by US News & World Report. www.northeastern.edu/bouve

Penn Vet
Veterinary Medical Doctorate
Penn Vet plays an important role in veterinary medicine, expanding the frontiers of disease diagnosis and treatment. Our historical philosophy of Many Species, One Medicine, spurred the development of veterinary specialties. Our emphasis on basic and comparative investigation to learn about disease development and process contributes to improved diagnosis and treatment of animals’ diseases. Penn Vet offers the VMD, VMD/PhD, and VMD/MBA (in conjunction with the Wharton School of Business) degrees. http://www.vet.upenn.edu/

Quinnipiac University
Frank H. Netter MD School of Medicine
The Frank H. Netter MD School of Medicine at Quinnipiac University was founded to address the pressing national need for more compassionate, team-oriented doctors and to be a model for interprofessional health education. Founded in 2010, the school is enrolling its first class of 60 students in Fall 2013. http://www.quinnipiac.edu/academics(colleges-schools-and-departments/school-of-medicine/)

Temple University School of Podiatric Medicine
Doctor of Podiatric Medicine (DPM)
Temple University School of Podiatric Medicine offers a four year professional degree leading to Doctor of Podiatric Medicine (D.P.M.); TUSPM is part of a major university with a comprehensive allopathic health sciences center; Temple has a four-year podiatric surgical residency program; the largest full-time D.P.M. faculty of the eight colleges of podiatric medicine; the only podiatric medical college that provides a job placement service after residency to its alumni; free one week Summer/Winter Internship Program. http://podiatry.temple.edu

Tufts Public Health Degree Programs
Public Health
Tufts University (Tufts) School of Medicine offers a Master of Public Health (MPH) degree that can be obtained by itself or in combination with the MD, DVM, MS in Nutrition, BA or BS degrees offered by Tufts. It is also offered with the JD from Northeastern University, a national leader in public interest law. A Master of Science in Health Communication (HCOM) in collaboration with Emerson College and a Master of Science in Pain Research, Education and Policy are also offered. Tufts' graduates are provided with appropriate knowledge and skills to practice in the broad arena of public health. http://publichealth.tufts.edu/
Tufts University - Friedman School of Nutrition Science and Policy

Established in 1981, the Gerald J. and Dorothy R. Friedman School of Nutrition Science and policy is the only graduate and professional school of nutrition in North America. Its mission is to improve the nutritional well-being of people worldwide through the creation of new knowledge, the application and dissemination of evidence-based information, and the education and training of future leaders in the field. The Friedman School faculty include biomedical scientists, economists, epidemiologists, nutritionists, physicians, political scientists and psychologists focusing on a myriad of issues with the common thread of nutrition and its role in fostering the growth and development of human population.

Programs of study draw upon the strength of Tufts University's interdisciplinary approach, which involves Tufts' seven other schools, the Jean Mayer USDA Human Nutrition Research Center on Aging and the Frances Stern Nutrition Center. There are several one-of-a-kind master's degree programs in the Friedman School that take advantage of this cross collaboration.

The school's rigorous curriculum, research, applied programs and internships provide its students with the opportunity to make significant contributions to the nutrition and health of all populations and to truly make a difference in the world.

http://nutrition.tufts.edu/

University of Connecticut School of Dental Medicine

Since its inception in 1968, the University of Connecticut School of Dental Medicine has been a prominent leader in dental education, dental research, and patient care. The predoctoral curriculum focuses on the biological and epidemiological bases of disease and provides strong preparation in the diagnostic and technical skills required for the practice of dentistry in the 21st century. The school shares a basic science curriculum with the School of Medicine and emphasizes an integrative approach to understanding the dynamics of the human body. Upon graduation, up to 80% of the students pursue advanced dental education in either the clinical specialties or general dentistry residency programs. As Connecticut's only dental school and the only public dental school in New England, the school is recognized nationally and internationally for both its predoctoral and advanced dental education/graduate education programs.
