Public Health Programs

Boston University, School of Public Health
The Master of Public Health (MPH) prepares students from diverse backgrounds to become highly effective public health practitioners. The 48-credit degree program begins with a broad, rigorous core curriculum that will give you a solid foundation of knowledge and skills across disciplines. Building upon this, you’ll take concentration courses to add depth, mastery, and strong practical skills in your chosen area of study. With the wide-ranging expertise of our faculty and the freedom to choose from over 230 elective courses across the spectrum of public health, you will have the flexibility to customize your program to suit your own career goals. http://www.bu.edu/sph/

Brown University School of Public Health
The Brown University School of Public Health educational programs include the fully accredited MPH Program; master of science degrees in biostatistics, epidemiology and behavioral and social sciences intervention; and doctoral programs in epidemiology, biostatistics, behavioral and social health sciences and health services research. http://www.brown.edu/academics/public-health/
Columbia University, Mailman School of Public Health
Founded in 1922, Columbia University’s Mailman School of Public Health pursues an agenda of research, education, and service to address the critical and complex public health issues affecting New Yorkers, the nation and the world. The Mailman School is the third largest recipient of NIH grants among schools of public health. It’s over 450 multi-disciplinary faculty members work in more than 100 countries around the world, addressing such issues as preventing infectious and chronic diseases, environmental health, maternal and child health, health policy, climate change & health, and public health preparedness. http://mailman.columbia.edu

Dartmouth College, The Dartmouth Institute, Master of Public Health and Master of Science in Healthcare Research
The Dartmouth Institute offers two intensive, one-year Masters’ programs that prepare students to lead the change to bridge healthcare and population health: Master of Public Health (MPH) Master of Science in Healthcare Research (MS) Both programs emphasize the need for understanding the health care system, using evidence to advocate for change and adopting scientific methods to serve the interests of patients. http://tdi.dartmouth.edu/educate/degree-programs/admissions/ms-mph-application-process

Harvard School of Public Health
From advancing scientific discovery to educating national and international leaders, the Harvard School of Public Health has been at the forefront of efforts to benefit the health of populations worldwide. Shaping new ideas in our field and communicating them effectively will continue to be priorities in the years ahead as we serve society’s changing health needs. http://www.hsph.harvard.edu

Johns Hopkins University, Bloomberg School of Public Health
As a leading international authority on public health, the Johns Hopkins Bloomberg School of Public Health is dedicated to protecting health and saving lives. Every day, the School works to keep millions around the world safe from illness and injury by pioneering new research, deploying its knowledge and expertise in the field and educating tomorrow’s scientists and practitioners in the global defense of human life. www.jhsph.edu

Yale School of Public Health, Master of Public Health
Since the Yale School of Public Health was founded in 1915, its exceptional and multidisciplinary faculty have conducted innovative and important research and policy analysis and have trained researchers, practitioners, administrators and educators who have had a positive impact on the health of populations. The School offers an exciting range of programs in addition to our two-year MPH program. These include an Advanced Professional MPH program for individuals with a health-related degree, an Accelerated MBA/MPH Program with the Yale School of Management, a joint MD/MPH program for Yale medical students and many other joint degree programs with many other professional schools at Yale. http://publichealth.yale.edu
**Health Professions / Medicine**

**AUA College of Medicine**
University of Antigua (AUA) is an allopathic 4-year medical college located on the island of Antigua. Our graduates are eligible for licensure throughout the United States and Canada. AUA students benefit from a hands-on education with successful USMLE and residency placement outcomes, a strong support network of on-site advisors and access to outstanding faculty, all for reasonable tuition costs. Financial aid is available for qualifying students. [www.auamed.org](http://www.auamed.org)

**Johns Hopkins School of Nursing**
Johns Hopkins School of Nursing offers Accelerated Bachelor, Master’s, and Doctoral Degrees. [www.nursing.jhu.edu](http://www.nursing.jhu.edu)

**Logan University, Doctor of Chiropractic**
Logan University’s Doctor of Chiropractic Program is a well-balanced curriculum which meets today’s evolving health care needs. Logan offers multidisciplinary learning environments that prepare doctors of chiropractic for practice. An enhanced clinical experience with a diverse patient population and complex clinical cases leads to hands-on training in real-world situations. Our graduates are highly trained and confident practitioners. [http://www.logan.edu/academics/doctor-of-chiropractic](http://www.logan.edu/academics/doctor-of-chiropractic)

**MGH Institute of Health Professions**
The MGH Institute of Health Professions is a graduate school founded by the highly ranked Massachusetts General Hospital, and offers unparalleled opportunities for faculty and students to learn and work alongside expert practitioners in a variety of hospital, clinical, educational and community settings. The MGH Institute is composed of the School of Health and Rehabilitation Sciences (SHRS), School of Nursing (SON), Center for Interprofessional Studies and Innovation (CIPSI). Entry-level and post-professional programs in Nursing, Communication Sciences and Disorders, Occupational Therapy, Physical Therapy and our new Physician Assistant Studies are among the Institute’s offerings. Other programs, including a PhD in Rehabilitation Sciences and a Master of Science in Health Professions Education, have been added in recent years to meet rising demand. [www.mghihp.edu](http://www.mghihp.edu)

**New England School of Acupuncture, Master’s of Acupuncture & Master’s of Acupuncture and Oriental Medicine**
As the nation’s first school of acupuncture and Oriental Medicine, NESA’s tradition of excellence is without equal. Since our founding in 1975, we have focused solely on preparing the country’s best acupuncture and Oriental Medicine practitioners. Our comprehensive programs in acupuncture and Chinese Herbal Medicine are carefully designed to develop leaders in integrative medicine. Whether you’re interested in pediatrics, elder care, pain management, or women’s health, you will find your calling here at NESA. [www.nesa.edu](http://www.nesa.edu)
Northeastern University, Bouvé College of Health Sciences
Northeastern’s Bouvé College of Health Science offers programs in Nursing, Physical Therapy, Biotechnology, Pharmaceutical Sciences, Audiology, Speech Language Pathology, School Psychology, Counseling Psychology, Physician Assistant, Public Health, and College Student Development. Degrees include the BSN/MS, MS, CAGS, and PhD. Clinical Degrees include AuD, DNP, DPT, and PharmD. There are non-degree certificates in Early Intervention and Health Informatics. [http://www.northeastern.edu/bouve/](http://www.northeastern.edu/bouve/)

NYIT College of Osteopathic Medicine, D.O. Degree
Founded in 1977, the New York Institute of Technology College of Osteopathic Medicine offers a four-year, fully accredited, professional program leading to a Doctor of Osteopathic Medicine Degree (D.O.). A D.O. is a complete physician, fully trained and licensed to prescribe medicine, perform surgery, and utilize manipulative treatment. The osteopathic philosophy of treating the whole person is applied to prevention, diagnosis, and treatment of illness, disease, and injury. [www.nyit.edu/medicine](http://www.nyit.edu/medicine)

Tufts University School of Medicine, Public Health and Professional Degrees
Tufts Public Health and Professional Degree Programs is located within the School of Medicine, on the Tufts Health Sciences Campus in downtown Boston. We offer a variety of public health Programs, including a Masters of Public Health (with many combined degree options) and a Master of Science in Health Communication. We also offer professional degrees such as a Physician Assistant Program and a Master in Biomedical Sciences Program (typically for pre-medical/pre-dental/pre-PA students). [http://publichealth.tufts.edu/](http://publichealth.tufts.edu/)

Tufts University, Friedman School of Nutrition Science and Policy
The Tufts University Gerald J. and Dorothy R. Friedman School of Nutrition Science and Policy was established in 1981 with the mission of bringing together biomedical, social, political, and behavioral scientists to conduct research and establish educational and community-service programs to improve the nutritional health and well-being of populations throughout the world. Nutrition programs of study draw upon the wealth of resources at the university. Tufts is classified as a Research I University and ranked among the top 30 universities and colleges in America. Interdisciplinary programs involve faculty and scientists at all of the other seven schools at Tufts, including specialty concentrations in international food and nutrition; nutrition communications; agriculture, food and environment; humanitarian assistance; and clinical nutrition, health promotion and disease prevention. The faculty of the Gerald J. and Dorothy R. Friedman School of Nutrition Science and Policy believe that the school’s rigorous curriculum, research and applied programs, internships and practical opportunities have made and will continue to make significant contributions to the nutritional status and health of populations worldwide. [http://nutrition.tufts.edu](http://nutrition.tufts.edu)

University of Medicine and Health Sciences
UMHS is a boutique medical school focused on providing a personalized educational approach. Reputations of those among our leadership have been forged during the past 35 years of academic success. Our faculty are experienced, highly credentialed, and recruited from the United States and Canada. UMHS students have posted tremendous outcomes on licensing exams and have achieved excellent residency placements across North America upon graduation. [www.umhs.org](http://www.umhs.org)
University of New England, College of Osteopathic Medicine
We train you to deliver patient-centered, high quality osteopathic primary care. Our goal is to ensure you are a physician who always puts the patient first. We engage in research and work to improve the community health of the people of Maine, New England and the United States. Since our founding as a College in 1978, we have had an extraordinary impact on health care in our local community and nationally. Our graduates have distinguished themselves as residents in some of the finest and most competitive residency training programs in the nation. The College of Osteopathic Medicine has been recognized by U.S. News & World Report for our national leadership in primary care training and rural medicine. www.une.edu/com

University of Pennsylvania, School of Veterinary Medicine
The School of Veterinary Medicine at the University of Pennsylvania offers the VMD degree as well as the VMD/PhD degree. www.vet.upenn.edu

Washington University in St. Louis, Brown School of Social Work
The Brown School offers exceptional Masters- and PhD-level programming in Social Work and Public Health. We also offer a variety of dual degree programs. The Brown School’s mission is: To educate and prepare future social work and public health leaders in areas of policy, practice, and research. To pioneer research and apply results to impact policy and practice locally, nationally, and internationally. To collaborate with organizations to use evidence to improve access to and quality of social services and to address social and economic justice. http://brownschool.wustl.edu
