Part 1: Faculty Organization and Procedures

The Faculty of the College

Bates College is operated under a charter granted by the State of Maine, which established a corporation and gave to it the authority to adopt by-laws for its governance. Article IX of the by-laws of The Charter and By-Laws of Bates College defines membership of the faculty, broadly defines its authority, and stipulates certain procedures. The entire text of Article IX is as follows:

By-Laws of Bates College, Article IX

SECTION 1: The faculty of the College will consist of the president, the deans, the chief financial officer, the registrar, the librarian, the principal assistant librarian, the professors, associate professors, assistant professors, instructors, lecturers, and the visiting professors. Designation as a member of the faculty confers the right to vote in faculty meetings and serve as a member of faculty committees.

SECTION 2: The terms and conditions of the appointment, reappointment, promotion, and retirement of all members of the faculty will be determined by vote of the Corporation under such rules of procedure and of tenure of faculty membership as may now or hereafter be provided by specific resolution of the Corporation.

SECTION 3: The government of the College, including the terms of admission, the bestowal of scholarships, the arrangement of courses of study, student discipline, and the control of student activities, will be vested in the faculty.

SECTION 4: The faculty will make provision for the keeping of proper minutes of their doings and may, by rule, create such offices and so regulate their doings as will seem best calculated to promote their efficiency.

SECTION 5: If the president will so request, the members of the faculty will annually make a written report covering the work of their respective departments or fields of activity.

Rules and Procedures Governing Faculty Appointment, Reappointment, Tenure, and Promotion

Article IX, Section 2 of the Charter and By-Laws of Bates College governs the personnel policies of the College. The dean of the faculty provides all new members of the faculty with copies of Article IX of the By-Laws and with these Rules and Procedures Governing Faculty Appointment, Reappointment, Tenure, and Promotion (hereafter, Rules and Procedures) at the time of initial appointment. The text of these Rules and Procedures, as legislated by the faculty, follows.

Article I: The Committee on Personnel

SECTION 1: COMPOSITION AND SELECTION

a) Function and Composition

The Committee on Personnel makes recommendations to the president in matters of reappointment, tenure, and promotion. The committee is composed of the president and the dean of the faculty, ex officio, and seven elected members of the faculty.

b) Election

By written ballot at its February meeting, the faculty elects the seven elected members for three-year, overlapping terms.

c) Nomination

The Committee on Faculty Governance shall present a slate of nominees to the faculty for the election of members to the Committee on Personnel, adhering to the following conditions:

1) All candidates must be tenured and must hold the rank of either associate professor or full professor.
2) In no case may an associate professor be nominated if election would mean that more than two associate professors would serve on the committee.

3) In no case may a full professor be nominated if election would mean that fewer than two associate professors would then serve on the committee.

4) Two members of the committee must hold full or part-time appointments in the division of the humanities, two in the division of the natural sciences and mathematics, and two in the division of the social sciences. At least one of these six members must have significant interdisciplinary experience, defined as one of the following: service for at least two years on a program committee, or holding a full or part-time appointment in an interdisciplinary program. The seventh member of the committee must hold a full or part-time appointment in an interdisciplinary program or have significant interdisciplinary experience, as defined above. SECTION 1: ADMINISTRATIVE CONSULTATION BEFORE INITIAL APPOINTMENTS

Before an initial offer of tenure-track employment or of non-tenure-track initial appointments in a department or program can be extended to any person, the president or dean of the faculty consults with the department or program chair regarding the judgments of all department or program members in residence on the candidates.

ARTICLE II, SECTION 2: CONDITIONS OF INITIAL APPOINTMENTS

Tenure is granted in connection with an initial appointment only upon recommendation of the Committee on Personnel, and is not solely an administratively negotiable condition. See below, Article II, Section 8. Initial appointment may be made at any rank. Lecturers are not eligible for tenure.

To consummate the initial appointment, the president or the president’s designee, on behalf of the Board of Trustees, and the appointee shall execute a written contract stating rank, salary, beginning and terminating dates of employment, fringe benefits, duties, and any special conditions specifically including credit for prior service as provided for below in Article II, Section 8. Joint contracts shall indicate as fully as possible what modifications, if any, in these Rules and Procedures are matters of agreement. In the absence of such written modifications, the presumption must be that these Rules and Procedures apply.

a) Full-time Tenure Track

Initial appointments to full-time, tenure-track positions are for a term of four years. Reappointments to tenure-track positions are for a further term of three years. See below, Article II, Sections 8, 9, 10, and 13 for exceptions.

b) Part-time Tenure Track

Initial appointments to part-time tenure-track positions are for a term of five years. Reappointments to part-time tenure-track positions are for a further term of five years. See below, Article II, Sections 8, 9 and 10 for exceptions. Evaluations of part-time tenure-track faculty shall proceed according to Article II, Section 6, below, with the exception that evaluations by the Committee on Personnel occur in different years of service than for full-time tenure-track faculty.

Initial appointments to the rank of lecturer are for terms not to exceed three years. Reappointments of lecturers may be for one, two, three, or five years.

ARTICLE II, SECTION 5: FORMAL NOTIFICATIONS

Written notifications of reappointment or nonreappointment are mailed by 15 May of their third year for tenure-track candidates and by 30 November for all lecturers. Written notifications of tenure are mailed by February 10 for all tenure-eligible persons, after which continuous service is presumed in the absence of a written notification to the contrary from either the individual or the College. See below, Article II, Section 13, and Article VII. Written notifications of promotion to full professor are mailed by 30 November.

In the event that the president or the Board of Trustees does not accept a recommendation on reappointment, tenure, or promotion made by the faculty Committees on Personnel, such nonacceptance shall be stated in the letters of notification.
Article II, Section 6: Evaluations

For candidates with tenure-track appointments whose tenure-track contract begins before 1 August 2015

a) Departmental or Program Evaluations
For individuals on a four-year tenure-track appointment, an evaluation shall be conducted during the fall semester of the second year of teaching at Bates. The purpose of this evaluation is to inform the individuals of the department or program members’ judgment of their job performance and to aid the individuals in any appropriate improvement.

For individuals with a single appointment in a department or program, the tenured members of the department or program shall conduct the evaluation. For individuals holding dual appointments, the tenured colleagues of the department(s) and/or program(s) specified in Article IV, Section I(c) shall conduct the evaluation.

When the individual candidate appointed in a single department or program has significant interdisciplinary service outside of that department or program, the candidate may ask the chair of interdisciplinary programs, in consultation with the candidate and with the chair(s) of the relevant programs and departments, to select one or two additional senior-ranking colleagues who are familiar with the candidate’s areas of teaching and scholarship. These colleagues are drawn from the past and present membership of the appropriate programs or departments. The chair(s) of the relevant program(s) and department(s) shall also write letters of evaluation.

Each tenured member shall write a signed letter of evaluation that discusses the individual’s strengths and weaknesses in terms of teaching, scholarship, and service. These evaluations shall be based on the kinds of evidence cited in Article IV, Section 5(d), as well as on direct evaluation of scholarship. All tenured members give their letters to the chair(s) of the departments and/or program(s) in which the individual holds an appointment. The chair(s) read them and give them all to the individual by 1 December. Once the individual has had an opportunity to read the letters, the individual and the chair(s) meet to discuss them. The chair(s) subsequently hold a meeting with all the letter writers to discuss the content of the letters, any disagreements, and departmental and/or program needs.

By 20 December, the dean of the faculty shall receive a letter from the chair of the department and/or program and one from the individual evaluated stating that the evaluation has taken place according to these procedures. Unless an individual letter writer or a candidate chooses to submit copies of letters written in the course of the departmental and/or program evaluation, the Committee on Personnel will not see such letters.

b) Subsequent Years
Every notification of a personnel decision shall include a detailed evaluation of individual performance based upon the materials submitted to the Committee on Personnel and on its discussion of those materials. This evaluation shall include a statement of strengths and weaknesses, a discussion of their relative importance, and a full statement of the reasons for the recommendation. This statement ought to include discussion of student ratings and letters on teaching, colleagues’ evaluations of research and teaching, and outside evaluations of research, if any. All written notifications must include all relevant information concerning institutional needs as they may limit the individual and concerning any percentage limitation or guidelines established by the Board of Trustees and announced by the president or the dean of the faculty. The individual may respond in writing, and any such response must be attached to the original summary statement in the personnel files and acknowledged by a reaffirmation or a revision of that summary from the dean.

c) Special Conditions
In the first and subsequent years, the dean of the faculty, the chairs of the departments and/or programs in which the individual holds an appointment, and the individual must make every effort to foresee and to communicate any special conditions for subsequent decisions on reappointment, tenure, or promotion. See Article I, Section 4.

For candidates with tenure-track appointments whose tenure-track contract begins on or after 1 August 2015:

a) Departmental or Program Evaluations in the Second Year
For candidates on a four-year tenure-track appointment, an evaluation shall be conducted during the fall semester of the second year of teaching at Bates. The purpose of this evaluation is to inform the candidates of the evaluators’ judgment of their job performance and to aid the candidate in any appropriate improvement.

Evaluators are those appointed through the process described in Article IV, Section 1. All evaluators shall write a signed letter of evaluation that discusses the individual candidate’s strengths and weaknesses in terms of teaching, scholarship,
and service. These evaluations shall be based on the kinds of evidence cited in Article IV, Section 5(d), as well as on direct evaluation of scholarship. All evaluators share the responsibility of contextualizing the position and the candidate’s teaching, professional achievement, and service within both the unit(s) of the candidate’s appointment and the College as a whole as well as assessing teaching, professional achievement, and service as described in Article III, Section 2.

All evaluators give their letters to the chair(s) of the departments and program(s) in which the candidate holds an appointment. The chair(s) read them and give them all to the candidate by 1 December. Once the candidate has had an opportunity to read the letters, the candidate may meet with the chair(s) to discuss them. The chair(s) subsequently hold a meeting with all the evaluators to discuss the content of the letters, any disagreements, and departmental and/or program needs.

By 20 December, the dean of the faculty shall receive a letter from the chair of the department(s) and program(s) of appointment and one from the candidate evaluated stating that the evaluation has taken place according to these procedures. Unless an individual evaluator or a candidate chooses to submit copies of letters written in the course of the second-year evaluation, the Committee on Personnel will not see such letters.

b) Subsequent Years

All evaluators shall write a signed letter of evaluation that discusses the individual candidate’s strengths and weaknesses in terms of teaching, scholarship, and service. These evaluations again shall be based on the kinds of evidence cited in Article IV, Section 5(d), as well as on direct evaluation of scholarship. All evaluators continue to share the responsibility of contextualizing the position and the candidate’s teaching, professional achievement, and service within both the unit(s) of the candidate’s appointment and the College as a whole as well as assessing teaching, professional achievement, and service as described in Article III, Section 2.

Every notification of a personnel decision shall include a detailed evaluation of individual performance based upon the materials submitted to the Committee on Personnel and on its discussion of those materials. This evaluation shall include a statement of strengths and weaknesses, a discussion of their relative importance, and a full statement of the reasons for the recommendation. This statement ought to include discussion of student ratings and letters on teaching, colleagues’ evaluations of research and teaching, and outside evaluations of research, if any. All written notifications must include all relevant information concerning institutional needs as they may limit the individual and concerning any percentage limitation or guidelines established by the Board of Trustees and announced by the president or the dean of the faculty. The candidate may respond in writing, and any such response must be attached to the original summary statement in the personnel files and acknowledged by a reaffirmation or a revision of that summary from the dean.

c) Special Conditions

In the first and subsequent years, the dean of the faculty, the chair(s) of the department(s) and program(s) in which the candidate holds an appointment, and the candidate must make every effort to foresee and to communicate any special conditions for subsequent decisions on reappointment, tenure, or promotion. See Article I, Section 4.

ARTICLE II, SECTION 7: SUBSEQUENT CONTRACTS

In annual contractual letters mailed in duplicate by 15 February, the College notifies each member of the faculty of the individual’s rank, salary, and benefits for the succeeding academic year. The contract must be electronically signed by 15 March.

ARTICLE II, SECTION 8: CREDIT FOR PRIOR SERVICE

Persons who have held previous appointments at other institutions may negotiate with the president or dean of the faculty at the time of the initial appointment at Bates for up to four years of teaching credit toward the tenurial decision, reducing or eliminating years spent in the initial four-year contract and adjusting the dates of formal notification accordingly. No such credit is assured. If four years of credit are granted, the initial and only contract prior to a tenure decision is for three years.

ARTICLE II, SECTION 9: EARLY CONSIDERATION

An individual, after consultation with the dean of the faculty, may declare early candidacy for reappointment, tenure, or promotion. Candidates for early consideration are held to the same criteria (see Article III), and evaluative procedures (see Article IV) as those applied under the normal timetable, and the decisions made are equally final.
ARTICLE II, SECTION 10: DELAYED CONSIDERATION

Full-year leaves of absence may delay the schedule of reappointments, tenure, and promotion correspondingly. See bates.edu/dof/faculty-scholarship. Neither a single half-year leave of absence nor any Short Term leave delays this schedule. In cases of multiple half-year leaves or partial leaves, the individual seeking delayed consideration must take the initiative to petition the Committee on Personnel, which has authority to accept or deny.

A candidate for promotion to full professor may elect to delay the initial consideration by the Committee. Requests for a delay must be made in writing to the dean of the faculty.

ARTICLE II, SECTION 11: SUBSEQUENT CONSIDERATION FOR PROMOTION

Subsequent to the initial consideration for promotion, the candidate may elect a new consideration in any year. The candidate must state this in writing to the dean of the faculty by 1 January. Such consideration does not involve solicitation of letters from outside evaluators or students, unless the candidate so requests. The committee shall decide whether to grant the request for additional letters.

ARTICLE II, SECTION 12: LIMITED TERM OF SERVICE AS INSTRUCTOR

No individual may be reappointed as an instructor for service in that rank beyond the fourth year.

ARTICLE II, SECTION 13: LIMITED TERM OF NONTENURAL SERVICE

No individual may be reappointed on a nontenural contract extending beyond the seventh consecutive year of full-time teaching on the faculty of Bates College. Lecturers, teaching less than full time, may be so reappointed. Part-time tenure-track faculty, teaching less than full time, may be so reappointed only in accordance with the schedule stated in Article II, Section 4. No other exception may be made unless an individual so requests and special circumstances such as serious illnesses justify exceptional delay of the decision on tenure.

Normally service on a temporary replacement appointment may not exceed three years. When a member of the faculty on such an appointment is a candidate and successfully sustains a competitive search for a tenure-eligible position, the committee need not consider the reappointment. When a colleague on a temporary appointment is needed by a department or program for a second or third year of temporary service, the committee need not consider the reappointment. All other reappointments of temporary colleagues shall be considered by the committee.

ARTICLE II, SECTION 14: RESIGNATIONS

Any member of the faculty who intends to terminate services at the end of an academic year is obligated to notify the College in writing of this decision not later than March 15.

Article III: Criteria for Reappointment, Tenure, and Promotion in Departments and Programs Other Than Physical Education

SECTION 1: NEEDS OF THE COLLEGE

a) Definitions

Needs of the College as finally determined by the president and the Board of Trustees govern all decisions on appointments, reappointments, and tenure. "Needs" may concern the financial resources of the College, the support necessary for academic programs approved by the faculty, the relationship of the individual's field to other fields of inquiry in the department(s) and/or program(s) in which an appointment is held, and the recognition of student interest. The need for a given position shall be established at the time of reappointment, that is, before the tenurial decision, subject to change as provided in Article III, Section 1(c).

b) Guidelines or Percentages

Because of such needs as specified in paragraph (a) above, the Board of Trustees may establish guidelines or percentages for limiting reappointments or tenure. If any guidelines or percentage limitations are set, they must be announced in writing to the faculty by the president or the dean of the faculty. Prior to such corporate establishment and
administrative announcement, the faculty Committee on Faculty Governance must be given the opportunity to discuss the specific proposal and its rationale separately with the faculty and members of the Board of Trustees.

Ordinarily such guidelines or limitations will restrict only the aggregate numbers or proportion of tenured members on the faculty as a whole. Ordinarily they will not restrict by department, program, or division quotas the numbers or proportion tenured in the several departments, programs, and divisions.

Any guidelines or percentage limitations may be applied by the Committee on Personnel in such a way as to produce general compliance. The committee may exceed guidelines or percentage limitations in a given year, but a continued practice of exceeding them would invoke Trustee review of the rules and procedures that govern appointment, reappointment, tenure, and promotion. The number or percentage of faculty members tenured in a department, program, or division may be a factor in the deliberations of the faculty Committee on Personnel.

c) Notification of Changed Needs
Whenever administrative reconsideration of the need for a position leads to a new determination, the president or dean of the faculty must notify in writing the individual, without awaiting the next scheduled review by the Committee on Personnel.

ARTICLE III, SECTION 2: GENERAL CRITERIA FOR ALL DECISIONS

a) Teaching
An excellent teacher has many strengths. Those sought by the committee include the following: knowledge of the subject; enthusiasm about the subject; organization of the course and subject matter; capacity to present abstract ideas and theories clearly; capacity to engage the class in the subject of lectures, discussions, or laboratories; encouragement of students to think for themselves; flexibility and willingness to experiment; reliability in meeting scheduled responsibilities; accessibility to students; fairness in examinations and grading. Academic advising is a normal part of a teacher's responsibilities, and it is evaluated as such.

b) Professional Achievement
The nature of professional achievement varies according to the field of the candidate. Achievement may take the form of research, writing, publication, or creative work and exhibition. The committee assesses evidence of the following strengths: recognition of the candidate's achievement within a field; significance of contributions to the field; quality and originality of thought or work; breadth and depth of perspective; the will and capacity for continued individual development and professional productivity as a member of the Bates faculty.

c) Professional Service to the Public
The College recognizes professional services that candidates render outside of their disciplinary institutions for the benefit of the public. Such service may take the form of advisory or educational work. The nature and extent of these contributions may vary from individual to individual.

d) Service to the College
The candidate is expected to contribute to the work of the College in ways other than teaching. Such service to the College may take the form of work within departments or programs, on the committees of the faculty, or in other activities of the College. The candidate may also serve the College through leadership in professional organizations, or with good citizenship in the community at large. The nature and extent of these contributions may vary from individual to individual.

ARTICLE III, SECTION 3: PARTICULAR APPLICATION OF CRITERIA FOR TENURE-TRACK REAPPOINTMENT AND FOR TENURE

a) Reappointment
The standard for reappointment is performance and promise pointing toward eventual attainment of tenure. Although equal progress toward satisfying all the criteria for tenure is not required for any reappointment, tangible evidence of effectiveness in teaching and of professional commitment is a condition for service beyond the fourth year. Reappointment does not insure a future decision for tenure.

b) Tenure
The two chief criteria for tenure are excellence in teaching and significant professional achievement. Particularly outstanding achievement in either teaching or professional activity may offset a lower level of achievement in the other
category. Every decision on tenure inevitably necessitates prospective judgment concerning the promise for further development.

**ARTICLE III, SECTION 4: CRITERIA FOR PROMOTION**

a) Promotion to Assistant Professor
The doctoral degree or another qualification appropriate to the field is normally the necessary and sufficient condition for promotion to the rank of assistant professor. Instructors appointed before receiving such a degree are promoted automatically for the academic year immediately following, if institutional certification of completion reaches the dean of the faculty by 1 September.

b) Promotion to Associate Professor
Permanent tenure is the sufficient condition for promotion to the rank of associate professor. Individuals with prior service at other institutions may be appointed initially to the Bates faculty at this or higher rank.

c) Promotion to Full Professor
Continuing excellence in teaching and continuing significant professional achievement are the two chief criteria for promotion to full professor. Particularly outstanding achievement in one category may offset a lower level of achievement in the other. Continuing service to the College is also expected, although this criterion is less important than the other two. Time in rank alone is neither a necessary nor a sufficient qualification.

**ARTICLE III, SECTION 5: ACADEMIC FREEDOM**
The Committee on Personnel shall adhere to the ideal of academic freedom as defined by the 1940 *Statement of Principles on Academic Freedom and Tenure* with the 1970 "Interpretive Comments" of the American Association of University Professors, see Web site aaup.org/AAUP/pubsres/policydocs/contents/1940statement.htm.

**ARTICLE III, SECTION 6: NONDISCRIMINATION**
The committee may not discriminate on the basis of race, color, national or ethnic origin, religion, sex, sexual orientation, gender identity, gender expression, marital or parental status, age, or disability. The committee, however, shall consider any of these factors in accordance with the approved Affirmative Action Policy of the College.

**Article IV: Evaluative Procedures**

**SECTION 1: EVALUATORS: FACULTY COLLEAGUES**

**FOR CANDIDATES WITH TENURE-TRACK APPOINTMENTS WHOSE TENURE-TRACK CONTRACT BEGINS BEFORE 1 AUGUST 2015.**

**IF QUALIFIED, FACULTY STANDING FOR FULL PROFESSOR MAY APPLY EITHER PROCESS.**

Tenured members of departments and programs, as well as the chairs of departments, programs, and divisions share ongoing responsibility for the evaluation of junior-ranking members. The Committee on Personnel requests evaluations from all such colleagues, as specified in Article IV, Section 1(a), (b), (c), and (d), at the scheduled occasions of reappointment, tenure, and consideration for promotion to full professor. At the beginning of each academic year, the dean of the faculty shall provide each tenured member of the faculty with a two-year schedule of all reappointment, tenure, and promotion decisions for which that member shall be expected to write.

a) Evaluation of Candidates Appointed in Departments Only
For reappointment, tenure, and promotion decisions for persons holding appointments solely in departments, evaluators shall be selected from members of the faculty as follows:

1) The chair of the departmental division, except in the case of lecturers.
2) The chair of the relevant department.
3) Senior-ranking colleagues in the candidate’s department.
4) If there are fewer than three senior-ranking members in any department, the committee solicits letters from one, two, or three other senior-ranking members of the faculty selected by the chair of the division in consultation with the candidate and the chair of the department.
5) In consideration of promotion, division and department chairs write evaluations regardless of their ranks.
6) For anomalous situations, Article I, Section 4(e) of the Rules and Procedures of the faculty shall apply.

b) Evaluation of Candidates Appointed in Programs Only
For reappointment, tenure, and promotion decisions for persons holding appointments solely in interdisciplinary programs, evaluators shall be selected from members of the faculty as follows:

1) The chair of interdisciplinary studies, except in the case of lecturers.
2) The chair of the program.
3) Senior-ranking colleagues in the candidate’s program.
4) To provide continuity, two senior-ranking colleagues (usually drawn from the appropriate program committee or the search committee) shall be identified at the time of the candidate’s appointment by the dean of the faculty upon recommendation of the chair of interdisciplinary programs, in consultation with the chair of the program and the candidate. These colleagues shall serve as permanent evaluators from the time of appointment through subsequent tenure and promotion decisions.
5) Two additional senior-ranking colleagues drawn from the membership of the program committee at the time of the call for letters for the candidate’s first evaluation by the Committee on Personnel. These two additional faculty are selected by the Committee on Personnel from four names recommended by the chair of interdisciplinary studies, in consultation with the chair of the relevant program and the candidate. These colleagues shall serve as permanent evaluators from the time of the first evaluation by the Committee on Personnel through subsequent tenure and/or promotion decisions.
6) At the time of consideration for reappointment, tenure, or promotion, at the discretion of the candidate, one or two additional uniquely qualified senior-ranking colleagues who are familiar with the candidate’s teaching and scholarship shall be selected by the chair of interdisciplinary studies, in consultation with the chair of the relevant program and the candidate.
7) In consideration of promotion, the chair of interdisciplinary studies and the chair of the program write evaluations regardless of rank.
8) Recommendations for replacement of any of the individuals specified in (3) and (4) above due to illnesses, retirements, and the like shall be made to the Committee on Personnel from colleagues selected by the chair of interdisciplinary studies in consultation with the chair of the relevant program and the candidate.
9) For anomalous situations, Article I, Section 4(e) of the Rules and Procedures of the faculty shall apply.

c) Evaluation of Candidates Holding Dual Appointments
For reappointment, tenure, and promotion decisions for persons holding dual appointments (e.g., two departments, two programs, or one department and one program), evaluators shall be selected from members of the faculty as follows:

1) The chair of each relevant division except in the case of lecturers.
2) The chair of each relevant department and/or program.
3) Four senior-ranking colleagues, two drawn from each of the departments and/or programs in which the candidate serves. To provide continuity, these four faculty shall be identified at the time of the candidate’s appointment by the dean of the faculty upon recommendation of the chair of the relevant division in consultation with the appropriate department and/or program chairs and the candidate. These colleagues shall serve as permanent evaluators from the time of appointment through subsequent tenure and promotion decisions.
4) At the time of consideration for reappointment, tenure, or promotion, at the discretion of the candidate, one or two additional uniquely qualified senior-ranking colleagues who are familiar with the candidate’s teaching and scholarship shall be selected by the chair of the relevant division in consultation with the relevant department and/or program chairs and the candidate.
5) In consideration of promotion, division chairs and department and/or program chairs write evaluations regardless of rank.
6) Recommendations for replacement of any of the individuals specified in (3) and (4) above due to illnesses, retirements, and the like shall be made to the Committee on Personnel from colleagues selected by the chairs of the relevant divisions and/or interdisciplinary programs, in consultation with chairs of relevant programs and/or departments, and the candidate.

7) For anomalous situations, Article I, Section 4(e) of the *Rules and Procedures* of the faculty shall apply.

d) Evaluation of Candidates Appointed in a Department, but with Significant Interdisciplinary Service

For reappointment, tenure, and promotion decisions for persons in a department, with significant interdisciplinary service, evaluators shall be selected from members of the faculty as follows:

1) The chair of the departmental division, except in the case of lecturers.

2) The chair of the relevant department.

3) Senior-ranking colleagues in the candidate’s department.

At the discretion of the candidate:

4) The chair of interdisciplinary studies and the chair(s) of the relevant program(s) and/or department(s).

5) At the time of consideration for reappointment, tenure, or promotion, one or two additional senior-ranking colleagues who are familiar with the candidate’s teaching and scholarship. These colleagues are drawn from the past and present membership of the appropriate program(s) and/or department(s) and shall be selected by the chair of interdisciplinary studies in consultation with the chair(s) of the relevant program(s) and/or department(s) and the candidate.

6) In consideration of promotion, division chairs and department and/or program chairs write evaluations regardless of rank.

7) For anomalous situations, Article I, Section 4 of the *Rules and Procedures* of the faculty shall apply.

FOR CANDIDATES WITH TENURE-TRACK APPOINTMENTS WHOSE TENURE-TRACK CONTRACT BEGINS ON OR AFTER 1 AUGUST 2015.

Tenured members of the faculty share ongoing responsibility for the evaluation of junior-ranking members. At the scheduled occasions of consideration for reappointment, tenure, and promotion to full professor, the Committee on Personnel will request evaluations from tenured faculty as specified in this section. At the beginning of each academic year, the dean of the faculty shall provide each tenured member of the faculty with a two-year schedule of all reappointment, tenure, and promotion decisions for which that member is expected to write. The dean of the faculty also shall notify all tenured faculty members who have served at least two years at the rank of associate professor of their options regarding selection of an evaluation committee for consideration of promotion to full professor. Additionally, at the beginning of each academic year, the dean of the faculty shall make available to all faculty a list of all tenured members of the faculty, annotated with the fields of expertise of each faculty member and the number of tenure and promotion review cases to which each faculty member is currently assigned.

a) For reappointment and tenure for all tenure-track appointments, evaluators shall be selected from members of the faculty as follows:

By the end of the first semester of the tenure-track appointment, preferably before the start date of the tenure-track contract, the Committee on Personnel will appoint four distinctly qualified tenured faculty as evaluators of the candidate from a list of not fewer than six and not more than ten potential evaluators. This list of potential evaluators is assembled by the chair(s) of the appointing department(s) and program(s) in consultation with the search committee, the division chairs, and any additional faculty staffing the departments or programs of the candidate’s appointment. The assembled list should include a description of the qualifications of each proposed potential evaluator to help the Committee on Personnel in their selection. The four evaluators selected will serve from the time of appointment through the first evaluation by the Committee on Personnel and any subsequent tenure decision.
By the end of the academic year preceding the candidate’s reappointment review, the Committee on Personnel will appoint one additional distinctly qualified evaluator of the candidate from a list of three potential evaluators. This list is assembled by the candidate in consultation with the four faculty evaluators originally appointed to the review. Here again, the assembled list should include a description of the qualifications of each proposed potential evaluator to help the Committee on Personnel in their selection.

Evaluators will be drawn primarily from among the tenured faculty who meet regularly to administer the department(s) and program(s) in which the candidate is appointed. They may also include tenured faculty on the search committee or in the candidate’s fields of expertise. In the case of appointments spanning more than one academic unit, evaluators should be drawn from each of the departments and programs of the candidate’s appointment, with representation roughly proportional to the candidate’s curricular responsibilities. It is assumed that the lists provided to the Committee on Personnel and the selected evaluators will be broadly representative of the candidate’s fields of expertise, and that consideration will be given to the existing evaluation load of potential evaluators. It is further assumed that those appointed to review by the Committee on Personnel will serve.

b) For promotion to full professor, evaluators shall be selected from members of the faculty by one of two methods, at the will of the candidate:
   If the group of evaluators appointed at the time of the tenure review includes at least four faculty members at the rank of full professor, the candidate for promotion may retain the original evaluators. All faculty from the original group who have achieved the rank of full professor shall serve as evaluators.
   Alternatively, in the third year after tenure, or no later than one year before the candidate submits materials for consideration for promotion to full professor, the candidate may request that a new evaluation committee of at least four faculty holding the rank of full professor be appointed by the Committee on Personnel. This written request must be made to the division chairs and must include an intellectual rationale for the formation of a new committee. In consultation with the candidate and the tenured full professors of the appointing department(s) and program(s), the division chairs shall assemble a list of six distinctly qualified full professors. The Committee on Personnel will appoint four of the six faculty as evaluators, and it is assumed that if appointed, the faculty will serve.

c) Recommendations for replacement of any of the individuals specified above due to illnesses, retirements, and the like shall be made to the Committee on Personnel from colleagues selected by the division chairs after consultation with the candidate and the tenured members of the department(s) and program(s) of appointment.

d) For anomalous situations, Article I, Section 4(f) of the Rules and Procedures of the faculty shall apply.

ARTICLE IV, SECTION 2: EVALUATORS: STUDENTS
On behalf of the committee, the dean of the faculty requests evaluative letters from at least twenty students or former students, selected according to procedures approved and published by the Committee on Personnel, concerning candidates for the tenurial decision and at first consideration for promotion to full professor or senior lecturer. Note: In order to obtain approximately twenty responses, the Committee of Personnel may need to make requests of up to sixty students.

ARTICLE IV, SECTION 3: EVALUATORS: QUALIFIED PROFESSIONALS ELSEWHERE
For all tenurial decisions and in the sixth year in rank as associate professor for all first considerations for promotion to full professor or senior lecturer, the College solicits four outside evaluations from qualified judges of the candidate’s professional work. Once identified by the Committee on Personnel, all communication with outside evaluators concerning this evaluation originates with the College.

The judges are selected in the following manner. The candidate designates one judge and also provides an alternate name. In addition, the candidate submits six names of qualified persons with brief descriptions of their qualifications.
The department and/or program chair also submit(s) six names with brief descriptions. If more than one department or program chair is involved in the evaluation, they submit jointly six names of evaluators, seeking a list of scholars whose work represents the range of the candidate's scholarship. These descriptions shall include each nominee's position, title, address, relevant publications, and past relationship to the candidate. Except in special circumstances presented by the candidate or the relevant department or program chairs and agreed to by the committee, no nominee shall be the candidate's dissertation advisor. Whenever possible, each nominee shall have a strong record of scholarship in the candidate's field of expertise. If a department or program chair is a candidate for tenure or promotion, the relevant division chair or chair of interdisciplinary programs provides the six names of outside evaluators. The committee then selects three names from these nominees or from others, nominated in the same way, informing the candidate of the names selected. The candidate may request reconsideration, but the committee or the dean of the faculty as its delegate makes the final decision on the three judges.

ARTICLE IV, SECTION 4: NEEDS OF THE COLLEGE

FOR CANDIDATES WITH TENURE-TRACK APPOINTMENTS WHOSE TENURE-TRACK CONTRACT BEGINS BEFORE 1 AUGUST 2015.

The dean of the faculty, the chair of the candidate's division and the chair(s) of the candidate's departments and/or programs are separately responsible for including assessments of the needs of the College in their recommendations on each pretenurial reappointment.

FOR CANDIDATES WITH TENURE-TRACK APPOINTMENTS WHOSE TENURE-TRACK CONTRACT BEGINS ON OR AFTER 1 AUGUST 2015.

The dean of the faculty and all evaluators of a candidate are separately responsible for including assessments of the needs of the College in their recommendations on each pretenurial reappointment.

ARTICLE IV, SECTION 5: TEACHING

The attempt to evaluate teaching fairly and effectively necessitates different sorts of contributions from students, colleagues, and administrators.

a) Submissions from the Candidate

The candidate should provide a statement on teaching and may provide copies of course materials, including syllabi and examinations.

b) Students' Evaluations

The Committee on Personnel, or other designated committee of the faculty, shall be responsible for soliciting student evaluations of courses. This committee shall acquire such evaluations systematically, in a standard form. The committee shall supervise the preparation of results from the student evaluations, including:

1) summaries of the answers to the background questions that precede the course evaluation questions;

2) summaries of the scored answers;

Materials 1) and 2) shall be distributed to the instructor, to the instructor's department and/or program chair(s), and to the dean of the faculty for the instructor's personnel file. These materials will be made available to the Committee on Personnel at the time of review of tenure-track and tenured faculty for third-year reappointment, tenure, and promotion, and at the time of review for reappointment for lecturers and senior lecturers.

c) Students' Letters

Students' letters evaluate the candidate's teaching, according to the criteria for teaching specified in Article III, Section 2(a).

d) Colleagues' Letters

Colleagues' letters must be based on factual evidence as well as personal judgment, and must specify such factual evidence, including the number and approximate dates of formal observations of classes. This evidence may include the following: after adequate notice to the instructor, observations of classes over a period of time and in different courses;
syllabi, examinations, or other course materials; formal interviews with students; observation outside of the classroom concerning such qualities as rapport with and accessibility to students; and responsibility in meeting obligations.

ARTICLE IV, SECTION 6: PROFESSIONAL ACHIEVEMENT

The attempt to evaluate achievement fairly and effectively necessitates different sorts of contributions from the individual candidate and from qualified professionals.

a) Submissions from the Candidate

The candidate is responsible for submitting regular annual reports of professional activities, which become part of the dossier considered by the Committee on Personnel. Every candidate for reappointment, tenure, or promotion should also submit to the dean of the faculty for the Committee on Personnel a written statement of scholarly, artistic, or other comparable work in progress and of goals for the future. The candidate should submit copies of all successful grant proposals and all published articles or books. Finally, the candidate may submit any other relevant material, including all papers read to scholarly audiences, letters concerning scholarship, art, or equivalent achievement by professionally qualified persons. See above, Article I, Section 3, for calendar.

b) Colleagues’ Letters

All colleagues writing according to the provisions of Article IV, Section 1, should incorporate evaluation of the candidate’s professional achievement and promise.

c) Evaluations from Qualified Professionals Elsewhere

Outside judges, writing according to the provisions of Article IV, Section 3, should evaluate published materials, manuscripts, or equivalent work, for the quality of achievements, their significance within the discipline, and any evidence of ongoing development or future promise. All information submitted to the committee from outside judges shall be in written form. All committee requests for further clarification from outside judges shall be in written form. This procedure may also be followed at the time of other decisions, depending on the judgment of the dean of the faculty or the Committee on Personnel.

ARTICLE IV, SECTION 7: SERVICE

The candidate should provide a cumulative list of committee service, with brief descriptions of particular contributions as seem appropriate. The candidate is also responsible for providing any other evidence of service to the College or the community at large. See Article I, Section 3, above for calendar. The committee may solicit further information about any aspects of this service.

ARTICLE IV, SECTION 8: OTHER INFORMATION

The committee, after informing the candidate, may seek any other information that it deems to be relevant, and the dean of the faculty may present to it other materials from the candidate’s file. All such material must be opened to the chosen examiner before submission to the committee. See above, Article I, Section 7

ARTICLE IV, SECTION 9: JOINT CONTRACTS

Individuals holding joint contracts shall be evaluated both individually and as a team. Before such evaluations, the dean of the faculty shall remind authors of letters and members of the committee that this evaluation must be in conformance with the requirements of the joint contract, i.e., jointly they shall serve the College in ways equivalent to a full-time teaching member of the faculty.

Evaluators should take particular notice that any possible quantitative standards of productivity used in the evaluation of individual holders of a joint appointment must be reduced in light of half-time employment.

Article V: Criteria and Schedules for the Authorization of Lectureships and for the Appointment, Reappointment, and Promotion of Lecturers

SECTION 1: NEEDS OF THE COLLEGE
a) Definitions
Needs of the College are defined in Article III, Section 1. The need for a given lectureship shall be established at the time of each reauthorization of the lectureship position.

ARTICLE V, SECTION 2: GENERAL CRITERIA FOR REAPPOINTMENT AS A LECTURER
a) Teaching
Excellence in teaching is a requirement for reappointment as a lecturer. The definitions of excellence in teaching are the same as those defined in Article III, Section 2, with the exception that academic advising is not required of all lecturers.

b) Professional Achievement
Excellence in professional achievement, in the form of research, writing, publication, or creative work and exhibition, is normally a requirement for the reappointment of a lecturer. Expectations for professional achievement shall be adjusted in ways appropriate to the part-time nature of a lecturer’s position. In some cases, which will be determined by the dean of faculty, lecturers may be appointed with an understanding that professional achievement is not necessary or appropriate. In these cases, evaluators and members of the Committee on Personnel need not take professional achievement into account as part of their evaluation. The definitions of excellence in professional achievement are those listed in Article III, Section 2.

c) Supplemental Teaching and Service
Lecturers normally have responsibility for supplemental teaching or service activities in proportion to the number of courses they teach. For example, a lecturer teaching three courses is expected to assume approximately half the supplemental teaching and service responsibilities of a full-time faculty member with similar experience, length of service and degree. The kind of supplemental teaching and service may vary, but might include some of the following: teaching of independent studies; major advising; thesis supervision; committee service; first-year advising; serving on honors panels; advising student organizations; and development, supervision, and maintenance of teaching facilities. Appropriate forms of supplemental teaching and service for a lecturer will be agreed upon by the department or program chair(s) and the lecturer, summarized in writing, and must gain the approval of the dean of the faculty. This decision must take into account the lecturer’s qualifications and yearly schedule, as well as department, program, and College needs. Contributions through supplemental teaching and service, where appropriate, are the most important criteria for the evaluation of lecturers, after teaching and professional achievement.

d) Professional service to the public, as defined in Article III, Section 2(c), may also be considered as part of a lecturer's evaluation.

ARTICLE V, SECTION 3: GENERAL CRITERIA FOR REAPPOINTMENT AS A SENIOR LECTURER
Candidates for the position of senior lecturer shall normally have achieved the terminal degree in their field, and have been employed by the College for thirteen years, or have arranged such credit for prior experience at the time of hiring. Continuing excellence in teaching and significant professional achievement are the two chief criteria for promotion to the rank of senior lecturer. Additionally, candidates for the position of senior lecturer shall demonstrate excellence in carrying out supplemental teaching and service.

ARTICLE V, SECTION 4: GENERAL CRITERIA FOR APPOINTMENT AND REAPPOINTMENT AS AN ARTIST IN RESIDENCE
The title of "artist in residence" shall apply to lecturers whose teaching and professional achievements are in the creative or performing arts. Candidates for the title of "artist in residence" must engage in professional work appropriate to their field. Departments or programs wishing to appoint a lecturer as artist in residence shall make this proposal to the dean of faculty, who will make a final decision. Artists in residence shall normally be appointed and reapointed according to the same criteria and schedules as lecturers. In some cases, the form of teaching conducted by an artist in residence will be outside the normal format of classes; the dean of the faculty and the department or program will establish appropriate forms of evaluation.

ARTICLE V, SECTION 5: SCHEDULE FOR AUTHORIZATION AND REAUTHORIZATION OF LECTURESHIP POSITIONS
a) Initial Authorizations
Initial authorization of all lectureships shall be made by the president, upon recommendations from the dean of faculty and the division chairs. Initial authorization of lectureships expected to be continuing shall normally be for three years.
b) Reauthorizations
The dean of the faculty and division chairs may recommend to the president the reauthorization of a lectureship for any term from one semester to three years, depending on their determination of the needs of the College. Second and third reauthorizations of lectureships that are continuing shall normally each be for three years. Subsequent reauthorizations shall normally be for five years. Every lectureship position must be reauthorized, normally in the academic year previous to the last year for which it has been authorized.

c) Lecturers with a Primary Staff Appointment
The dean of the faculty and division chairs may recommend to the president that some persons whose primary appointment is for non-teaching duties may hold the appointment of lecturer, because their duties regularly involve non-classroom forms of teaching, or because the appropriate departments and/or programs have agreed that they are qualified to teach courses. After the initial appointment, this lectureship does not need reauthorization by the division chairs, but is dependent on the continuation of the staff appointment. In cases involving courses, the supervisor of the person’s staff responsibilities shall decide upon the frequency of course offerings, subject to the agreement of the appropriate departments and/or programs, and subject to reappointment by the Committee on Personnel. Lecturers engaged in non-classroom forms of teaching shall also be evaluated by the Committee on Personnel. Personnel Committee evaluations shall be conducted according to the schedule in Section 6, below.

**ARTICLE V, SECTION 6: SCHEDULE FOR APPOINTMENT AND REAPPOINTMENT OF LECTURERS**

a) Initial Appointments
Initial appointments for lecturers may be for any term from one semester to three years, depending on the authorization of the lectureship position. The initial appointment of a lecturer occupying a position expected to be continuing shall be for three years, with evaluation of that lecturer scheduled for completion in November of the third year of the lecturer’s contract.

b) Subsequent Appointments
Second and third appointments of lecturers occupying positions expected to be continuing shall normally be for three years each. Fourth and subsequent reappointments of lecturers may be from one to five years, with evaluations scheduled for completion in November of the last year of the lecturer’s contract.

c) Appointment as Senior Lecturer
Lecturers may be considered for promotion to the rank of senior lecturer after thirteen years of employment as a lecturer, or through credit for prior experience arranged at the time of hiring. A lecturer who meets the minimum years of service may choose to be evaluated for this promotion by indicating this decision in writing to the dean of faculty by 1 January preceding the reappointment decision. Subsequent to the initial consideration for promotion, a lecturer may elect a new consideration in any year, by stating this decision in writing to the dean of faculty by 1 January preceding the reappointment decision. Lecturers attaining the rank of senior lecturer no longer need to undergo evaluation by the Personnel Committee. The division chairs re-evaluate the need for the lectureship position every five years.

**ARTICLE V, SECTION 7: EVALUATIVE PROCEDURES**
The evaluation of lecturers shall take place according to the procedures described in Article IV, with the exception of Sections 2 and 3. For purposes of reappointment, division chairs do not write as division chairs. For a lecturer not appointed in a department or program, the dean of faculty, in consultation with the lecturer, shall appoint suitable evaluators. As part of the reappointment of any lecturer, the Committee on Personnel may request letters from students. The number of letters requested from the students of lecturers being evaluated may vary, depending on the number of courses taught by the lecturer.

The evaluation of lecturers at first consideration for promotion to senior lecturer shall include both letters from students selected according to Article IV, Section 2, and letters from qualified professionals elsewhere, selected according to Article IV, Section 3. For lecturers standing for promotion to senior lecturer who engage in significant teaching outside the classroom, the dean of the faculty, in consultation with the lecturer, shall determine appropriate procedures for gaining student evaluation.
Article VI: Physical Education

SECTION 1: THE COMMITTEE ON PERSONNEL FOR PHYSICAL EDUCATION

a) Composition and Selection

The Committee on Personnel for Physical Education makes recommendations to the president in matters of reappointments, three-year contracts, and promotion for members of the Department of Physical Education. The committee is composed of the president, dean of the faculty, the athletic director, and the senior woman administrator (SWA), all ex officio, and two elected members of the academic faculty of the College who are not members of the Department of Physical Education. The faculty elects these two members for three-year, overlapping terms at its February meeting. The Committee on Faculty Governance presents nominees to the faculty according to the following conditions: (1) Each elected member shall be from one of the four academic divisions; (2) all candidates must be tenured; (3) at least one of the elected members must be a full professor. Additional nominations may be made from the floor at the February meeting of the faculty, but such nominations must conform to the above conditions.

b) Article I, Sections 2, 3, 4, 5, 6, 7, and 8 apply also to the Committee on Personnel for Physical Education and to all faculty members and head coaches serving in the Department of Physical Education. The yearly calendar of decisions stated in Article I, Section 3, shall be supplemented by the following dates: May 15 for notification of decisions on the renewal of a three-year contract except when involving an in-depth review, when notification of decision is February 10.

ARTICLE VI, SECTION 2: CONDITIONS AND SCHEDULES OF APPOINTMENT, REAPPOINTMENT, AND PROMOTION

a) Article II, Sections 1, 3, 5, 7, 9, 10, 11, 12, and 14 apply also to members of the faculty serving in the Department of Physical Education. Article II, Sections 2, 8, and 13 apply also, but in regard to three-year contracts, not tenure.

b) First Contract -- Third-Year Review

The initial contract for faculty, head coaches, and athletics administrators in the Department of Physical Education shall be three years in length. Faculty and head coaches in the third year of service will be evaluated by the Committee on Personnel for Physical Education according to the relevant procedures and schedule described in Articles I and II. If the third-year evaluation is positive, candidates for renewal will be recommended for an additional three-year contract. If the head coach receives an unfavorable initial review, they will not be reappointed after the third year.

c) Ongoing Three-Year Contract -- In-depth Sixth-Year Review

Faculty and head coaches in the sixth year of service will undergo a full performance evaluation, akin to the tenure review for tenure-track faculty as outlined in Article IV. Candidates who are positively reviewed as a result of the in-depth review process will be recommended for an ongoing (i.e., rolling) three-year contract, which will be renewed every year. Candidates who receive an unfavorable review will not be appointed after the sixth year. Once a head coach is on a rolling contract, the director of athletics or the Committee on Personnel for Physical Education may call for a review due to a concern about job performance. In that instance, the contract will stop rolling (i.e., not renew), and a full performance evaluation will occur in the next year. Candidates who are positively reviewed will be returned to a three-year rolling contract. If the results call for termination, the head coach will be able to finish out the third year of their current contract.

ARTICLE VI, SECTION 3: CRITERIA FOR REAPPOINTMENT, THREE-YEAR CONTRACT, AND PROMOTION

a) Degrees

Although a master's degree is not required for the awarding of a rolling contract, the criteria for promotion to faculty status will now normally include completion of a master's degree appropriate to the field. In cases in which a head coach holds such a master's degree at the time of a successful sixth-year review, or completes the degree within two years following that review, the Committee on Personnel for Physical Education will make a recommendation to the president for awarding of faculty status as a lecturer. A head coach who completes a master's degree after the eighth year of service may request consideration for promotion to faculty status through a Committee on Personnel for Physical Education review. This review is akin to the sixth-year review except that only faculty status, not the head coach’s appointment or rolling contract, is under consideration.

b) Other Criteria
Needs of the College as finally determined by the president and the Board of Trustees must govern all decisions on appointments, reappointments, and three-year rolling contracts. Excellence as a coach is the normal condition for appointment and reappointment. The expected combination of coaching and teaching strengths for members of the Department of Athletics and Physical Education is roughly comparable to the expected combination of teaching and scholarship for members of other departments and programs. At a small and selective liberal arts college, coaching is not measured exclusively by records of wins and losses. It also involves encouraging the development in individual students of such qualities as self-confidence, self-control, persistence, discipline, cooperation, and teamwork. Candidates should demonstrate the will and the capacity to fulfill secondary responsibilities in the department, to maintain professional competence, to recruit highly-qualified students, and to serve the College and the community. An excellent coach is an excellent teacher and has many strengths. Those sought by the committee include the following: demonstrated knowledge of the sport(s); enthusiasm about the sport(s); organization of practices and games; capacity to present ideas and theories clearly; capacity to engage athletes in competition; encouragement of students to think for themselves; flexibility and willingness to keep current in the sport(s); reliability in meeting scheduled responsibilities; accessibility to students; fairness.

c) Article III, Sections 5 and 6 apply also to members of the faculty and head coaches serving in the Department of Physical Education.

ARTICLE VI, SECTION 4: EVALUATIVE PROCEDURES

Article IV applies also to the Committee on Personnel for Physical Education and to all faculty members serving in the Department of Physical Education, unless otherwise noted below.

a) Colleagues’ Letters:

Colleague letters should evaluate the candidate’s professional achievement and promise as a coach and teacher. Colleague letters must be based on factual evidence as well as personal judgment, and must specify such factual evidence, including the number and approximate dates of formal observations of practices, games and/or classes. This evidence may include the following: after adequate notice to the head coach, observations of practices/games/classes over a period of time; playbooks, practice guidelines, or other coaching/teaching material; information about recruitment processes and implementation; formal interviews with students; observations outside of practices/games/classes concerning such qualities as rapport with and accessibility to applicants/students; and responsibility in meeting obligations.

For reappointment and promotion decisions, in addition to the athletic director, evaluators shall be selected from members of the department who hold rolling three-year contracts as follows:

1) Two colleagues shall be identified by the dean of the faculty upon recommendation of the athletic director, in consultation with the candidate. To provide continuity, these colleagues shall serve as permanent evaluators from the time of appointment through subsequent promotion or reappointment decisions.

2) At the time of consideration for reappointment or promotion, at the discretion of the candidate, one additional uniquely qualified colleague who is familiar with the candidate’s performance shall be selected by the athletic director, in consultation with the candidate.

3) Recommendations for replacement of any of the individuals specified in 1) and 2) above due to illnesses, retirements, or other reasons shall be made to the Committee on Personnel for Physical Education from colleagues selected by the athletic director, in consultation with the candidate.

For anomalous situations, Article I, Section 4 of the Rules and Procedures of the Faculty shall apply.

b) Submissions from the Candidate:

The candidate is responsible for submitting to the athletic director and Dean of the Faculty’s Office regular annual reports of professional activities, including coaching, teaching, and recruiting, which become part of the dossier considered by the Committee on Personnel for Physical Education. For second three-year contracts, in-depth sixth-year reviews, and full performance reviews prompted by concerns about job performance (see Article VI, Section 2, paragraph c), the candidate shall submit a dossier that includes:

1) Coaching/Teaching: statement about the candidate's coaching philosophy and implementation with sample supporting materials (e.g., organizational manual, practice plans, game reports, scouting reports, video work, etc.); perspective on the place of academics and athletics in the life of a Bates student-athlete and methods of encouraging academic achievement; approach to the individual development of all participants.
2) Professional Achievements: history of seasonal outcomes; history of team and/or individual athlete records and other program successes; professional leadership positions in NESCAC, NCAA, or other organizations; additional professional accomplishments.

3) Service and Second Assignment(s): summary of service to Athletics, to the College, and to the community; approach to alumni development and fundraising; review of performance of other departmental assignment(s).

4) Recruiting: approach to recruiting with sample recruiting schedule(s)/plan(s) and supporting materials for execution of those schedule(s)/plan(s).

c) Annual Evaluations:
The athletic director evaluates all athletics personnel on an annual basis. This review consists of both a written evaluation and a subsequent meeting to discuss the evaluation document and any other performance concerns. In addition, the athletic director shall write a brief summary of the evaluation meeting. This summary will be signed by both the athletic director and the candidate and placed in the candidate's permanent personnel file. The Committee on Personnel for Physical Education shall have access to the candidate's annual year-end written evaluation and the signed meeting summary.

d) Students’ Evaluations:
The committee shall have access to a summary of student evaluations for each season. The committee shall acquire such ratings systematically and on standard forms. These summaries shall be part of the candidate's permanent personnel file and shall be discussed with the athletic director during the annual evaluation meeting.

e) Students’ Letters:
On behalf of the committee, the dean of the faculty requests evaluative letters from at least twenty students or former students from the six-year period under review, selected according to procedures approved by the committee concerning candidates for the second three-year contract, and as necessary for an in-depth review of those head coaches currently holding three-year rolling contracts. Note: In order to obtain twenty letters, the committee may have to solicit up to sixty students.

f) Evaluations from Qualified Professionals Elsewhere:
For the sixth-year review, and as necessary, for the in-depth review of three-year contract holders, four outside evaluators shall be selected in the same manner as prescribed in Article IV, Section 3. These judges should evaluate the candidate's coaching and other professional activity on the basis of observation in intercollegiate athletics competition through association with the candidate in professional activities.

Article VII: Appeals
Necessarily, decisions on appointment, reappointment, tenure, and promotion are in some degree comparative and prospective, and it is not possible to specify in advance the full range of considerations that may be relevant to particular cases. Nevertheless, it is possible to specify necessary considerations, those specified above in the Rules and Procedures. Furthermore, it is possible to specify impermissible considerations, namely, any that would violate recognized principles of academic freedom or nondiscrimination.

ARTICLE VII, SECTION 1: TIME LIMITATION FOR APPEALS
Any appeal by a faculty member who was denied reappointment, tenure, or promotion must be made in writing to the dean of the faculty within 60 days after notification according to the provisions of Article II, Section 5. This appeal must state as fully and as factually as possible the basis for alleging violation of process. The appeal document, including any supporting material submitted by the appellant or any statements submitted by others, but excluding the minutes of the faculty Committee on Personnel, shall be checked for completeness and correctness by the examiner of the appellant’s dossier prior to its submission to the Trustee Review Committee.

ARTICLE VII, SECTION 2: GROUND FOR REVIEW
The only ground for review is violation of process. Violations of process are defined by an alleged violation of the Rules and Procedures stated above in Article I through V, or are defined by an alleged violation of academic freedom or of the
equal opportunity guarantees from Article III, Sections 5 and 6. "Academic freedom" is defined by the 1940 "Statement of Principles" and the 1970 "Interpretive Comments" of the American Association of University Professors.

ARTICLE VII, SECTION 3: PROCEDURES FOR INITIATING A TRUSTEE REVIEW COMMITTEE
After receiving from the faculty member who was denied reappointment, tenure, or promotion a written appeal that alleges violation of process, the dean of the faculty shall submit it to the president. The president shall request the chair of the Board of Trustees to convene the Trustee Review Committee, which shall report its findings to the president and to the appellant within 75 days of the time the appeal is delivered to the dean of the faculty. This report should respond to the substance of the allegations made in the appeal submitted by the faculty member.

ARTICLE VII, SECTION 4: COMPOSITION OF THE TRUSTEE REVIEW COMMITTEE
The Review Committee shall be composed of three members of the Board of Trustees, but not including the president or college counsel, who shall serve three-year terms according to a schedule which assures some continuity of membership. Whenever possible, at least one of the members shall have direct professional experience of academic life. No member of the Board of Trustees who has previously reviewed the dossier of the appellant prepared for consideration by the Committee on Personnel to the Trustee Review Committee. If neither the written appeal nor this preliminary inquiry discloses evidence sufficient to suggest that violation of academic freedom or of equal opportunity may in fact have occurred, the Review Committee should be governed by the criteria specified above in Article III and should have access to materials specified in Article IV. The Review Committee shall also consider all materials submitted as part of the candidate’s appeal, and material concerning the appeal submitted by others. The rule regarding the confidentiality of the deliberations of the Committee on Personnel (Article I, Section 5(c)) shall not prevent submissions by individual members of the Committee on Personnel to the Trustee Review Committee. If the Review Committee finds substantive evidence that the faculty Committee on Personnel may not have met these standards, it shall return the case to the same committee, specifying in writing the inadequacy of the original consideration. This written response is also delivered to the appellant, but the appellant has no rights of access to confidential materials. This same faculty Committee on Personnel must then formally reconsider the case, including in its reconsideration material submitted to the Trustee Review Committee, and make a fresh recommendation to the president that either upholds or reverses the Committee’s original recommendation. The president, in turn, shall make a fresh recommendation to the Board of Trustees.

ARTICLE VII, SECTION 5: PROCEDURE IN CASES ALLEGING VIOLATION OF PROCESS OF THE RULES AND PROCEDURES
In cases alleging a violation of process defined as violation of the Rules and Procedures stated above in Articles I through V, the function of the Review Committee is limited to a determination of whether or not the faculty Committee on Personnel followed the Rules and Procedures Governing Faculty Appointment, Reappointment, Tenure, and Promotion. The Review Committee should be governed by the criteria specified above in Article III and should have access to materials specified in Article IV. The Review Committee shall also consider all materials submitted as part of the candidate’s appeal, and material concerning the appeal submitted by others. The rule regarding the confidentiality of the deliberations of the Committee on Personnel (Article I, Section 5(c)) shall not prevent submissions by individual members of the Committee on Personnel to the Trustee Review Committee. If the Review Committee finds substantive evidence that the faculty Committee on Personnel may not have met these standards, it shall return the case to the same committee, specifying in writing the inadequacy of the original consideration. This written response is also delivered to the appellant, but the appellant has no rights of access to confidential materials. This same faculty Committee on Personnel must then formally reconsider the case, including in its reconsideration material submitted to the Trustee Review Committee, and make a fresh recommendation to the president that either upholds or reverses the Committee’s original recommendation. The president, in turn, shall make a fresh recommendation to the Board of Trustees.

ARTICLE VII, SECTION 6: PROCEDURES IN CASES ALLEGING VIOLATION OF PROCESS WHICH RESULT IN VIOLATION OF ACADEMIC FREEDOM OR OF EQUAL OPPORTUNITY
a) Function of the Trustee Review Committee
In cases alleging violation of process that result in violation of academic freedom or of equal opportunity as stated in Article III, Sections 5 or 6, the Review Committee has two functions. First, it must make preliminary inquiry into the allegation. The Review Committee shall also consider all materials submitted as part of the candidate’s appeal, and material concerning the appeal submitted by others. The rule regarding the confidentiality of the deliberations of the Committee on Personnel (Article I, Section 5(c)) shall not prevent submissions by individual members of the Committee on Personnel to the Trustee Review Committee. If neither the written appeal nor this preliminary inquiry discloses evidence sufficient to suggest that violation of academic freedom or of equal opportunity may in fact have occurred, the appeal shall be denied and the decision made by the Board of Trustees upheld. The appellant shall be so informed. Second, if the Review Committee does find such evidence either in the written appeal or in its own inquiry and if such violation was made by the faculty Committee on Personnel, then it shall instruct the president to convene the Faculty Review Board, and inform the appellant of such finding. If there is evidence of violation of academic freedom or of equal opportunity solely by the president or the Board of Trustees, then the Review Committee shall report it to the chair of the Board of Trustees for further Trustee consideration.

b) Composition, Selection, and Function of the Faculty Review Board and of Its Hearing Committee
The board shall consist of nine tenured members elected by the faculty for five-year terms. If a member is elected to the Committee on Personnel or the Committee on Personnel for Physical Education, that member ceases to serve on the board, and a new election is held. When a specific appeal comes to the board, five of its members are selected at random to serve as the Hearing Committee. This random selection shall be conducted by the board. This Hearing Committee may not include members of the departments or programs in which the appellant holds full or part-time appointments
or the appellant’s division chair or chair of interdisciplinary programs. In cases alleging violation of academic freedom or of equal opportunity on promotion to full professor, all members of the Hearing Committee must be full professors. Each Hearing Committee elects its own chair.

The Hearing Committee selected for the appeal shall begin consideration within ten days of the president’s informing the Faculty Review Board that an appeal has been directed to it. Such consideration shall be governed by the criteria specified above in Article III and shall involve access to all material specified in Article IV. The Hearing Committee may also conduct further inquiries relevant to the alleged violation. Upon completion of its consideration, the Hearing Committee shall make a fresh recommendation to the president which either upholds or reverses the original recommendation of the faculty Committee on Personnel. The president, in turn, shall make a fresh recommendation to the Board of Trustees.

c) Rights of Appellant
In any consideration of an appeal by a Hearing Committee, the appellant is guaranteed the following rights. First, the Hearing Committee must give at least seven days’ advance notice of the date, time, and place of the consideration. Second, the individual, with or without the assistance of an advocate chosen from among colleagues on the faculty, shall have prior access to all written materials considered by the faculty Committee on Personnel and disclosed by further inquiries of either the Trustee Review Committee or the Hearing Committee. Third, the individual, with or without the chosen advocate, shall have the right to attend the consideration of the appeal by the Hearing Committee with an opportunity to question either written materials or spoken testimony and to present the appellant’s case. After the presentation and examination of all evidence and of the case on behalf of the appellant, the Hearing Committee shall retain the right to continue consideration and to vote in confidence without the presence of either the appellant or advocate.

d) Rights of the Faculty Committee on Personnel
The president and the dean of the faculty, representing the faculty Committee on Personnel, have the same rights granted to the appellant, as specified above in Article VII, Section 6(c). The Hearing Committee may invite other members of the faculty Committee on Personnel to testify, or such members may request and be granted an opportunity to testify.

ARTICLE VII, SECTION 7: PHYSICAL EDUCATION
Members of the faculty and head coaches in the Department of Physical Education shall have the same rights of appeal, except that the Hearing Committee shall be governed by the criteria specified in Article VI and shall have access to materials specified in Article VI.

Article VIII: Termination for Cause

SECTION 1: DEFINITION
Termination of the appointment of a faculty member on contract without limit of tenure or within the specified term shall be effected only in cases of adequate cause as defined in the following statements.

a) Gross neglect of duty resulting in a clearly inadequate performance as a teacher and as a member of the faculty.

b) Physical or mental disability of such serious nature as to preclude acceptable performance as a teacher and as a member of the faculty.

c) Personal conduct in flagrant conflict with the purposes of teaching and of scholarship and seriously detrimental to the College.

d) Bona fide financial exigency of the College.

ARTICLE VIII, SECTION 2: PROCEDURES
Procedures to be followed in case of termination of a faculty contract for cause are detailed in the Appendix which follows and is incorporated herein by reference.
Appendix to the Rules and Procedures Governing Faculty Appointment, Reappointment, Tenure, and Promotion

Procedures for Termination of Faculty Contract for Cause

a) Preliminary Proceedings Concerning the Fitness of a Faculty Colleague
When reason arises to question the fitness of a faculty colleague who has tenure or whose term of appointment has not expired, the president should ordinarily discuss the matter with the colleague in personal conference. The matter at this point may be terminated by mutual consent of the president and the colleague. If the matter is not terminated, the president and the Committee on Faculty Governance shall begin preliminary proceedings. During these proceedings the role of the president is to represent the College as it brings possible charges against the colleague; the role of the committee is to represent the interests of the faculty at large and to assist the parties in finding a resolution.

If the president believes that there are reasonable grounds to pursue the procedures of dismissal for cause, the preliminary proceedings begin with the president convening the Committee on Faculty Governance and presenting a written summary of the College’s reasons, such summary having been previously given to the colleague. The committee then undertakes an inquiry consisting of an informal meeting with the appropriate administrative officer, an informal meeting (without the presence of College administrative officers) with the colleague unless the colleague declines, and informal meetings with any others the committee deems necessary. The chair of the committee chairs this informal inquiry. Any member of the committee who is a member of the same department or program as the faculty colleague may not participate in this hearing. The completion of the informal inquiry must occur within five working days of the date the president presented the summary to the committee and will result in a resolution of the matter agreeable to all parties or, failing a resolution, recommendations to the president of ways to resolve the situation. These recommendations may include suggesting other College procedures.

Within three working days of receiving the committee’s recommendations, the president must either notify in writing the colleague that no formal charges will be brought, or communicate those charges to the colleague as described in (b) below. The president may seek the assistance of the committee in formulating a statement of the charges. Any formal charges shall refer to one or more of the causes for termination given in Article VIII, Sections 1(a), (b), or (c).

b) Commencement of Formal Proceedings
The president will commence the formal proceedings by informing in writing the colleague of the charges formulated and stating that a faculty committee, duly constituted as provided in (d) below, will conduct a hearing to determine whether the colleague should be removed from the faculty on the grounds stated. This hearing shall begin no sooner than 20 calendar days after the president presents the formal charges to the colleague. If during this period there is a mutually agreed upon resolution, these proceedings shall be terminated and the charges dropped. The president shall inform the faculty colleague, in detail or by reference to published regulations, of the colleague’s procedural rights, through delivery to the colleague of the most recent updated Faculty Handbook of Bates College. The faculty colleague may give to the president a written response to the charges at any time prior to the hearing.

c) Suspension of the Faculty Member
Suspension of the faculty colleague during the proceedings is justified only if immediate harm to self or others is threatened by continuation in service. Unless legal considerations forbid, any such suspension shall be with pay. The president, representing the Corporation, shall determine whether suspension (as a temporary alteration of contract) is necessary during the proceedings.

d) Composition of the Hearing Committee
An ad hoc committee of the faculty is named for each occasion when informal proceedings do not succeed. Its voting members shall be seven tenured members of the faculty, two named by the president, two named by the faculty colleague, and three named by these four meeting together. These seven members elect their chair from among themselves and vote by simple majority. No member of the Committee on Faculty Governance may serve on a Hearing Committee. The Board of Trustees shall provide one of their number to be a nonvoting member of the committee. The Hearing Committee makes recommendations to the president and the Board of Trustees.
e) Committee Proceeding

The committee shall proceed by considering the statement of grounds for dismissal already formulated, as well as any written response from the faculty colleague. The colleague has the right to be heard, as described below in (f). If the colleague declines to participate in the hearing, the committee shall consider the case on the basis of the obtainable information and decide whether the colleague should be removed. The committee, in consultation with the president and the colleague, shall exercise its judgment as to whether the hearing should be public or private. If any facts are in dispute, the testimony of witnesses and other evidence concerning the charges set forth in the president’s letter to the colleague shall be considered by the committee.

The president shall have the option of attendance during the hearing. The president may designate an appropriate representative to assist in developing the case; but the committee should determine the order of proof, should normally conduct the questioning of witnesses, and, if necessary, should secure the presentation of evidence important to the case.

The faculty colleague shall have the option of assistance by counsel, whose functions shall be similar to those of the representative chosen by the president. The colleague shall have the additional procedural rights set forth in the 1940 American Association of University Professors Statement of Principles on Academic Freedom and Tenure, and shall have the aid of the committee, when needed, in securing the attendance of witnesses. The colleague or counsel, and the representative designated by the president, shall have the right, within reasonable limits, to question all witnesses who testify orally. The colleague shall have the opportunity to be confronted by all witnesses adverse to the colleague. Where unusual and urgent reasons move the Hearing Committee to withhold this right, or where the witness cannot appear, the identity of the witness, as well as the witness’s statements, shall nevertheless be disclosed to the colleague. Subject to these safeguards, statements may when necessary be taken outside the hearing and reported to it. All of the evidence shall be duly recorded. Unless special circumstances warrant, it shall not be necessary to follow formal rules of court procedure.

f) Consideration by Hearing Committee

The committee shall reach its decision in conference, on the basis of the hearing. Before doing so, it shall give an opportunity to the faculty colleague or the colleague’s counsel and the representative designated by the president to argue orally before it. If written briefs would be helpful, the committee may request them. The committee may proceed to decision promptly, without having the record of the hearing transcribed, where it feels that a just decision can be reached by this means; or it may await the availability of a transcript of the hearing if its decision would be aided thereby. It shall make explicit findings with respect to each of the grounds of removal presented, and a reasoned opinion may be desirable. Publicity concerning the committee’s decision may properly be withheld until consideration has been given to the case by the Board of Trustees. The president and the colleague shall be notified of the decision in writing and should be given a copy of the record of the hearing. Any release to the public shall be made through the president’s office.

g) Consideration by the Governing Board

The president shall transmit to the Trustees the full report of the Hearing Committee, stating its action. On the assumption that the board has accepted the principle of the faculty Hearing Committee, acceptance of the committee’s decision would normally be expected. If the governing board chooses to review the case, its review shall be based on the record of the previous hearing, accompanied by opportunity for argument, oral or written or both, by the principals at the hearing or their representatives. The decision of the Hearing Committee shall either be sustained or the proceeding be returned to the committee with objections specified. In such a case the committee shall reconsider, taking account of the stated objections and receiving new evidence if necessary. It shall frame its decision and communicate it in the same manner as before. Only after study of the committee’s reconsideration shall the governing board make a final decision overruling the committee.

h) Publicity

Except for such simple announcements as may be required, covering the time of the hearing and similar matters, public statements about the case by either the Faculty colleague or administrative officers shall be avoided so far as possible until the proceedings have been completed. Announcement of the final decision shall include a statement of the Hearing Committee’s original action, if this has not previously been made known.
Rules and Procedures of Faculty Governance

When in the judgment of the committee the proposal requires only one reading, it shall be designated routine legislation and may be voted on at the same faculty meeting at which it is introduced. Deliberation of items designated as routine shall be conducted pursuant to Robert's Rules of Order.

Deliberative legislation shall require at least two readings extending over at least two regular faculty meetings. At least one of the originators of the proposal shall be a member of the committee. The ad hoc committee shall follow the procedure in paragraph 1 above. If the faculty rejects the recommendation to establish an ad hoc committee, the original proposal shall become deliberative legislation.

b) The procedures of Article IV, Section 2(b), (c), and (d) shall apply also to proposals presented by faculty members other than committees.
