

LANE HALL PROJECT

(Renovation)

Architect: Canal 5 Studio

Contractors: Hebert Construction

Completion Date: Summer, 2018

Total Square Feet: 5,200

Programmatic Drivers:

The Communications department currently occupies 141 and 145 Nichols Street. These two buildings are scheduled to be demoed as part of the STEM project in the fall of 2018. As a result, Communications must be relocated as soon as possible.

The vacant space on the ground floor of Lane Hall, previously occupied by Post & Print, will be utilized. Additional space on both the ground and first floors currently occupied by DOF, DOS, and general building support services will also be re-purposed as part of the renovation.
