Requesting Reimbursement

WHAT IS A FLEXIBLE SPENDING ACCOUNT (FSA)?

Under current IRS regulations, an FSA allows you to set aside pre-tax dollars to reimburse yourself for out-of-pocket medical and/or dependent care expenses. You elect an annual amount and the money is divided by the number of pay periods in a plan year and deducted from your paycheck pre-tax. **Pre-tax benefits can help you save 25% - 30% on items and services you currently purchase!**

WHO CAN PARTICIPATE?

All employees who are eligible for the group health plan.

- You do not need to be enrolled in your organization’s health plan to participate, but you must be eligible for coverage.
- You may also use the Medical FSA for expenses associated with your qualified dependents. Your dependents do not need to be enrolled in your health plan to participate in the FSA. See your Summary Plan Description for more information on qualified dependents.

THERE ARE TWO TYPES OF ACCOUNTS

Your employer may offer one or both accounts, and you may elect to participate in either or both accounts. The two accounts work differently.

- **Medical Care FSA**
  - Your employer sets the minimum and maximum contribution amounts (limited by the federal maximum).
  - You may be reimbursed up to your annual election any time during the plan year.
  - Be sure to elect an amount that you are sure you’ll use because any monies left over will be forfeited unless your plan includes a carryover provision.
  - This account reimburses you for eligible out-of-pocket medical expenses for you, your IRS-defined spouse and qualified dependents.
  - See the list of eligible expenses accompanying this brochure.

- **Dependent Care FSA**
  - You may use the Dependent Care Flexible Spending Account if you (or you and your spouse, if married) require dependent care so that you and your spouse can work, or so that you can work and your spouse can attend school full-time.
  - If you or your spouse work part-time or attend school full-time, your maximum annual election may be limited. Please refer to your employer’s Summary Plan Description for more information.

FREQUENTLY ASKED QUESTIONS

May I change my election mid-year? The IRS prohibits election changes unless you have a qualifying event. A qualifying event is any one of the following life events:

1. You gain or lose a dependent through:
   • Birth, death, marriage, divorce, separation, adoption or a change in eligibility because of age or dependent status.
2. You gain or lose responsibility for a dependent’s medical or daycare expense due to a court order.
3. You gain or lose eligibility for the plan during the plan year.
4. If your spouse loses employment, you may enroll in or increase your Medical FSA.

*This is a summary of current IRS regulations. Your employer’s Summary Plan Description details when and if you may change your elections under the plan.

When can I make changes to my Dependent Care Account? In addition to the qualifying events above, you may also make changes to your Dependent Care Account when there is a change in cost, a change in provider, or a change in the number of hours needed for care.

What if I lose my check? Call GDi’s Accounting Team at 1-800-626-3539. We encourage participants to choose Direct Deposit as their primary reimbursement method if their employer has made this option available.
May I transfer money from a Dependent Care FSA to a Medical FSA? No. IRS regulations prohibit such transfers.

What happens if my employment terminates?

1. Medical FSA
   - You are eligible to submit reimbursement requests through the end of the run-out period applicable to terminated employees for services incurred up to and including your last day of work. See your Summary Plan Description for more information.
   - You may have the option to elect COBRA to extend the coverage period for your Medical FSA.

2. Dependent Care
   - You may continue to submit reimbursement requests for services incurred after your employment terminates through the applicable run-out period. See your Summary Plan Description for more information.

Do I need to report an FSA on my taxes? If you participate in a Dependent Care FSA, you must file IRS Form 2441 with your annual tax return. There is no obligation to file any additional forms on behalf of your Medical FSA.

What about the IRS Child Care Credit?
Obtain a copy of IRS Form 2441 and review the amount of credit due to you in your income bracket, or consult with your tax advisor to determine which approach works best for your personal circumstances.
