# Reducing your out-of-pocket costs for the medicine you need

## **Preventive Medicine List**

# Receive preventive medicine without first having to meet your deductible.

If you have certain conditions such as high blood pressure, high cholesterol, diabetes, asthma or osteoporosis, you'll be interested in a special feature that can help you manage the cost of the medicine you need.

We understand how important it is to take the medicine prescribed by your doctor, and the Aetna preventive medicine feature makes it easier for you to do that.

Health benefits and health insurance plans are offered, administered and/or underwritten by Aetna Health Inc., Aetna Health Insurance Company of New York, Aetna Health Insurance Company and/or Aetna Life Insurance Company (Aetna). In Florida, by Aetna Health Inc. and/or Aetna Life Insurance Company. In Maryland, by Aetna Health Inc., 151 Farmington Avenue, Hartford, CT 06156. Each insurer has sole financial responsibility for its own products.

Aetna Pharmacy Management refers to an internal business unit of Aetna Health Management, LLC.

For chronic conditions, forget the health savings account/health reimbursement arrangement deductible — just pay your copay or coinsurance when buying these medications.
