

Have you or someone you know been affected by sexual violence, dating violence, or stalking?

If you want to talk, we're here to help.

To report an incident without disclosing your name:

bates.ethicspoint.com

Do you want to **report** the incident privately? You can speak to these trained individuals. Disclosure results in outreach from the Title IX Office.

Do you want to talk **confidentially** with someone or are you unsure if you want to file a report? Confidential resources do not share your information with the Title IX Office.

Do you want to speak with someone not associated with Bates? All off-campus and medical resources are **confidential**. There will be no report to the Title IX Office.
