

### Math 101 Fall 2008 Daily Schedule

<b>Dates</b>	<b>Topics</b>
Sept 4	Chapter 2: Data
Sept 9	Chapter 3: Displaying and Describing Categorical Data
Sept 11	Chapter 4: Displaying and Summarizing Quantitative Data <b>HW 1 due at the start of class</b>
Sept 16	Chapter 4 (continued)
Sept 18	Chapter 5: Understanding and Comparing Distributions <b>HW 2 due at the start of class</b>
Sept 23	Chapter 6: The Standard Deviation as a Ruler and the Normal Model
Sept 25	Chapter 7: Scatterplots, Association, and Correlation <b>HW 3 due at the start of class</b>
Sept 30	Chapter 7 (continued)
Oct 2	<b>First Test</b>
Oct 7	Chapter 8: Linear Regression
Oct 9	Chapter 9: Regression Wisdom <b>HW 4 due at the start of class</b>
Oct 14	Chapter 9 (continued) <b>First Project due at the start of class</b>
Oct 15 - 19	FALL RECESS
Oct 21	Chapter 11: Understanding Randomness
Oct 23	Chapter 12: Sample Surveys <b>HW 5 due at the start of class</b>
Oct 28	Chapter 13: Experiments and Observational Studies
Oct 30	Chapter 13 (continued) <b>HW 6 due at the start of class</b>
Nov 4	Chapter 14: From Randomness to Probability
Nov 6	Chapter 15: Probability Rules! <b>HW 7 due at the start of class</b>
Nov 11	Chapter 15 (continued)
Nov 13	<b>Second Test</b>
Nov 18	Chapter 18: Sampling Distribution Models
Nov 20	Chapter 18 (continued) <b>HW 8 due at the start of class</b>
Nov 22 - 30	THANKSGIVING RECESS
Dec 2	Chapter 19: Confidence Intervals for Proportions
Dec 4	Chapter 19 (continued)
Dec 10	<b>Second Project due by 4 p.m. in my office (Hathorn 211)</b>
