Merrimack College offers graduate programs in the following areas: accounting, management, public affairs, engineering, computer science, education, counseling, and health sciences. All of our graduate programs are full-time, intensive degree programs, which can also be completed on a part-time, flexible schedule. There is no fee to apply and applications are accepted on a rolling admission basis. merrimack.edu/graduate

Bastyr University
Internationally recognized for its rigorous, science-based curriculum, Bastyr University is an accredited institution of natural health arts and sciences. Graduate degrees include: Doctor of Naturopathic Medicine (ND); Master of Public Health; MS in Nutrition (whole food based); MA Counseling Psychology; Doctor Acupuncture & Oriental Medicine; MA Maternal-Child Health; MS Midwifery; MS Ayurvedic Sciences; Certificate Holistic Landscape Design; Post-Bacc in ND & Nutrition. www.Bastyr.edu/Admissions

Boston University

Mental Health Counseling and Behavioral Medicine Program
The Master of Arts (M.A.) in Mental Health Counseling and Behavioral Medicine (MHCBM) is accredited, by the Council for Accreditation of Counseling & Related Educational Programs (CACREP) The MHCBM program is an intensive 60-credit degree program designed to meet the requirements for an independent clinical mental health-care license in Massachusetts and other states. The primary objective is to prepare individuals in mental health counseling interventions with a complementary background in behavioral medicine and neuroscience. www.bumc.bu.edu/mhbmm

Boston University

School of Public Health
At SPH, we are harnessing the integrated power of research, education, and practice to improve the human condition in every way we can. Our departments, our curriculum, our degree and certificate programs—all reach generously and creatively across borders, boundaries, and disciplines in the quest for solutions. Our Master of Public Health (MPH) degree gives you an integrated, problem-based foundation in the values, history, methods, and functions of public health with the option to specialize in one of our 17 interdisciplinary certificates. The research-focused MS
degrees and PhD degrees produced graduates who are known for their comprehensive knowledge and excellent methodological skills—skills that will enable you to translate research findings into practical applications. And if you’re hoping to learn more about a specific area before getting involved in a degree program, we offer graduate certificates in public health, clinical trials, and statistical genetics. www.bu.edu/sph

Columbia University School of Nursing
*Master Degree, Doctor of Nurse Practice, PhD*
A Columbia Nursing education enables students to practice at the highest level of the profession, providing accurate, independent diagnosis and effective treatment. Our students master all facets of nursing care—from the basic to the most complex—which puts them into practice within an interdisciplinary health care team. Instilled with the values and principles of nursing excellence, our nurses realize their passion for making a difference in the lives of their patients. nursing.columbia.edu

Dartmouth College
*Quantitative Biomedical Sciences*
The QBS program seeks to train highly qualified students for productive careers in biomedical research and teaching through the completion of an interdisciplinary PhD degree in bioinformatics, biostatistics and epidemiology. The program is interdepartmental with numerous collaborations existing between QBS members and those in other PhD programs at Dartmouth. Our philosophy is that the modern biomedical researcher must be able to speak more than one language to successfully collaborate in a highly multidisciplinary environment. Students trained through QBS will be versed in bioinformatics, biostatistics and epidemiology. http://www.dartmouth.edu/~qbs

Dartmouth College Geisel School of Medicine
*Master of Public Health, Master of Science in Healthcare Research*
Dartmouth promotes a healthy skepticism of the “common wisdom” about health care and encourages students to accept findings and apply evidence only after a critical evaluation of its strengths and weaknesses. Graduates of both the MPH and MS programs work in clinical practice, administration, research, and health policy, where they bring fresh understanding of the complexities of American health care along with the innovation and dedication to achieve real reform. http://tdi.dartmouth.edu/education/degree-programs/admissions

Johns Hopkins University
*Bloomberg School of Public Health*
The Johns Hopkins Bloomberg School of Public Health has a big mission: Protecting Health, Saving Lives—Millions at a Time. Faculty, staff and students have helped eradicate smallpox, made water safe to drink, improved child survival, reduced the spread of HIV and uncovered the dangers of tobacco smoke. Researchers and scientists are now discovering ways to eliminate malaria, increase healthy behavior, reduce the toll of chronic disease, improve the health of mothers and infants, and change the biology of aging. The Bloomberg School offers nine master’s degrees—MAPHB, MAS, MBE, MPH (a Schoolwide degree), MHA, MHS, MPP, MSPH and ScM—as well as three doctoral degrees—PhD, ScD and DrPH—along with combined degree options, certificates and non-degree opportunities. www.jhsph.edu

Lake Erie College of Osteopathic Medicine
*Lake Erie College Geisel School of Medicine*
The Lake Erie College of Osteopathic Medicine offers the best choices to prepare the next generation of health care professionals. LECOM offers a choice of the main campus in Erie, PA, with an additional location in Greensburg, PA, and the branch campus in Bradenton, FL; a choice of careers in medicine, dentistry or pharmacy; and your choice of student-centered learning styles for medicine: traditional, problem-based learning; independent studies; a three-year Primary Care Scholars Pathway; and the Accelerated Physician Assistant Pathway. www.lecom.edu

Logan University
*Doctor of Chiropractic Medicine*
Logan University is a leader in chiropractic and health sciences education. Logan is constantly improving the educational experience to offer a more robust and comprehensive student experience. Logan’s students benefit from a rigorous and dynamic learning environment, setting the bar for board exam pass rates that exceed national averages. http://www.logan.edu/

MGH
*Institute of Health Professions*
The MGH Institute is a graduate school in Boston, MA. We have entry-level (& post-professional) programs in Nursing, Communication Sciences and Disorders, Occupational Therapy, Physical Therapy and Physician Assistant Studies. www.mghihp.edu

Midwestern University
*Admissions*
Healthcare education is what we do. We’re an established leader with an exciting vision for the future. Midwestern University offers programs that give you solid footing in the sciences, extensive hands-on experience in outstanding clinical rotations, and a compassionate perspective toward your patients. You’ll learn side-by-side with students in other health professions, modeling the team approach to 21st century healthcare practice. And you’ll learn from faculty mentors who are dedicated to preparing their future colleagues for the realities of patient care. Our graduates are found in leading hospitals, private practices, laboratories, pharmacies, and healthcare facilities across the United States. Midwestern University. We’re tomorrow’s healthcare team. www.midwestern.edu
New York Institute of Technology

*College of Osteopathic Medicine*

Founded in 1977, the New York Institute of Technology College of Osteopathic Medicine offers a four-year, fully accredited, professional program leading to a Doctor of Osteopathic Medicine Degree (D.O.). A D.O. is a complete physician, fully trained and licensed to prescribe medicine, perform surgery, and utilize manipulative treatment. The osteopathic philosophy of treating the whole person is applied to prevention, diagnosis, and treatment of illness, disease, and injury. NYITCOM opened an additional location at Arkansas State University in Jonesboro, Arkansas for the inaugural class of 115 students. [www.nyit.edu/medicine](http://www.nyit.edu/medicine)

St. George's University Grenada

*Medical/Veterinary Medicine*

The University's over 14,000 graduates include physicians, veterinarians, scientists, and public health and business professionals across the world. The University offers advanced, premedical, and preveterinary degrees in its Schools of Medicine and Veterinary Medicine, and independent and dual graduate degrees in the sciences, public health, and business. [www.sgu.edu](http://www.sgu.edu)

Temple University

*School of Podiatric Medicine*

Temple University School of Podiatric Medicine offers a four year professional degree leading to Doctor of Podiatric Medicine (D.P.M.); TUSPM is part of a major university with a comprehensive allopathic health sciences center; Temple has a four-year podiatric surgical residency program; the largest full-time D.P.M. faculty of the nine colleges of podiatric medicine; the only podiatric medical college that provides a job placement service after residency to its alumni; free one week Summer/Winter Internship Program. [http://podiatry.temple.edu](http://podiatry.temple.edu)

Tufts University School of Medicine

*Public Health and Professional Degree Programs*

Tufts University School of Medicine- Public Health and Professional Degrees offers a wide variety of programs. The professional degrees include the Physician Assistant Program and Master of Science in Biomedical Sciences. Some of the Public Health Programs are the Master of Public Health, Doctor of Public Health, Master of Health Communication and the Master of Science in Pain Research, Education and Policy. We also offer many combined degree options. We are located on the Tufts Health Sciences Campus in downtown Boston, in the Chinatown neighborhood. [http://publichealth.tufts.edu](http://publichealth.tufts.edu)

University of Maryland

*School of Social Work*

The University of Maryland School of Social Work, consistently ranked in the top 10 percent of MSW programs, offers majors in Clinical and Macro Social Work. Visit us to learn how our degree helps you accomplish your career goals. [ssw.umaryland.edu/admissions](http://ssw.umaryland.edu/admissions)

University of New England

*College of Osteopathic Medicine*

UNE's College of Osteopathic Medicine (UNE COM) has been transforming students into health care leaders trained to deliver patient-centered, high quality osteopathic primary care, while engaging in research and efforts to improve the community health in Maine, New England and the nation. [http://www.une.edu/com](http://www.une.edu/com)

Washington University in St. Louis

*Brown School of Social Work*

The Brown School's Social Work and Public Health programs prepare students for leadership in their fields, and the student experience is guided by an outstanding community of faculty and over 500 affiliated community and global partners. Social work and public health students at the Brown School are united by a passion to help others. Gain the knowledge to make great change happen.
