

CITL 2025-2026

Building Capacity, Enhancing Pedagogy, and Supporting Educator Excellence

Big Picture: Our Reach

CITL continued to be a central hub for professional growth on campus. Our community of educators are more engaged than ever.

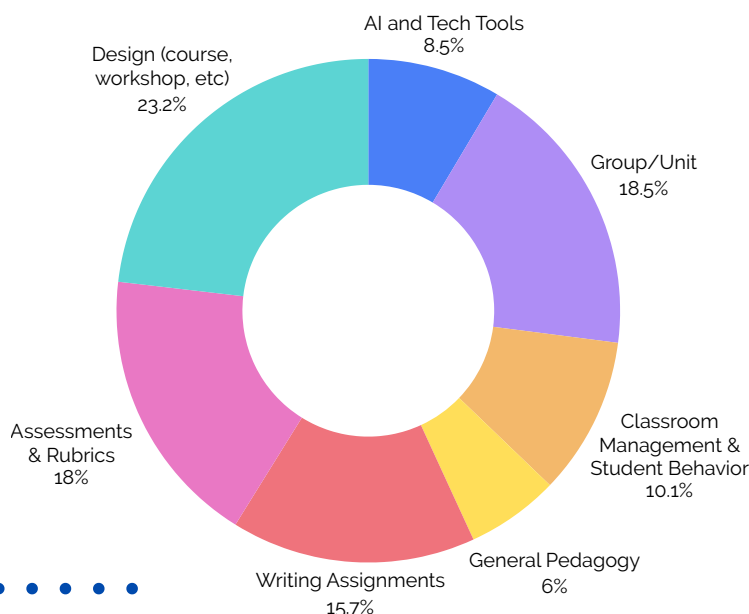

- **3,500+ Total Hours** of participation in programs and services
- **272 Unique Educators** participated in at least one CITL program
- **85% of Full-Time Faculty** engaged with us this year
- **19 Mid-Semester Feedback & Observations** conducted

Expanding Our Capacity

Goal Met: We set out to broaden our institutional footprint by expanding the CITL Fellows program. We grew from 1-2 Fellows annually to 10 Fellows, representing 10 different units across campus (CHEM, EDUC, ILS, MATH, NRSC, OAE, PHYS, PLTC, SASC, SOC).

Personalized Support: 215 Consultations

Our team provided deep-dive support across a wide spectrum of pedagogical needs.

Community & Collaboration

Learning happens best when we grow together. Our group-based programming flourished this year:

- **34 Workshops:** Focused on evidence-based teaching strategies
- **37 Communities of Practice Meetings:** Held across 6 distinct learning communities
- **4 Reading Groups:** Deep-diving into 4 transformative books on education

Thank you for your commitment to inclusive excellence in teaching. We look forward to another year of growth and connection!
