X. Signature

I understand I must review the TE program requirements and this application with a Teacher Education faculty member no later than March 1 of Sophomore year, and that all of the required components (essay, transcript, LOR) be completed prior to acceptance into the TE minor. I also understand that I must meet with my TE advisor at least once during my junior year to update my plans.

Note: Review of your application is holistic. It includes a consideration of the following:

1) performance in previous courses in education; 2) G.P.A.; 3) strength of your recommendation; 4) your commitment to completing a rigorous program during your senior year. Acceptance to the Teacher Education program will be for the first semester only. While we anticipate that our candidates will continue with the program through the second semester, we also collaboratively assess the likelihood of successful program completion after the first semester of TE senior sequence.
