

DO NOW - Incomplete Dominance NAME: _____ CLASS: _____

1. There are different types of inheritance. In these flowers, the white flower is crossed with a red flower to get pink flowers. This type of inheritance is called **incomplete dominance**. Why do you think it is called that?

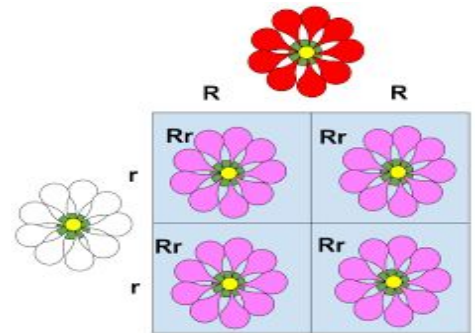

2. Now, show **incomplete dominance** with a Punnett square. Create a Punnett square mating two pink flowers.

3. Are these flowers an example of an organism that completes sexual or asexual reproduction?
